C

LAND MANAGEMENT:

SITE: } No livestock in field during
visit. Field (site & halo) appears
well managed, not over or under
grazed. Fairly flat field, could be
used for hay/silage.

D

DESCRIPTION/CONDITION OF MONUMENT:

The 'site of' the standing stone appears well managed/farmed, as described above. There is no standing stone in the site, but there is a standing stone (another one) in the halo (see map). This appears to be in a good condition.

E

POTENTIALLY THREATENING FACTORS: (see Table 1)

As there is no standing stone in the site there are no potentially threatening factors. It appears the stone was removed many years ago as the farmer does not remember a standing stone at that location.

I SPOKE TO MR. DAVIES (who lives at Stabl, next to the Cromlech farmhouse). THE STANDING STONE WAS REMOVED BY MR. DAVIES AROUND 40 YEARS AGO - IT WAS 'LOOSE' AND HE WAS CONCERNED ABOUT THE SAFETY OF HIS CHILDREN. THE STONE WAS CARRIED TO THE SIDE (marked *)

THE OTHER STANDING STONE IDENTIFIED DURING THE ORIGINAL SURVEY, IS ACTUALLY A STONE DUG UP BY MR. DAVIES WHO WAS CLEARING THE FIELDS OF STONES. THIS PARTICULAR STONE WAS TOO LARGE AND HEAVY TO BE CARRIED AWAY.
