BASELINE 1994

PRN: 433

C

LAND MANAGEMENT:

SITE: Appears unmanaged, neglected appearance. However, there is ground cover of the whole site.

HALO: As PRN 436, well managed.

D

DESCRIPTION/CONDITION OF MONUMENT:

Difficult to ascertain due to unimproved grass & weeds overgrowth, & other vegetation. Tipped small stones & rocky boulders further complicate the exact location & features of the monument.

E

POTENTIALLY THREATENING FACTORS: (see Table 1)

1. Further tipping of stone / rocky boulders.
2. Open ditch & adjoining side ditches.
3. Tree removed by uprooting.
4. Scrub encroachment.
5. Trees not damaged.

D:DESCRIPTION/CONDITION OF MONUMENT

The location of the monument was not identified at base survey. There is however an obvious circle of large boulders in a semi-circle on the SE boundary of the marked site. This is probably the enclosure boundary. New photo 4 shows this.
