C

LAND MANAGEMENT:

SITE:

Some stone cattle & 1st lamb,
grazing during visit. Site & halo

HALO:

appear well managed, not over or
under grazed. Field could be used for
grazing or silage/hay.

D

DESCRIPTION/CONDITION OF MONUMENT:

Difficult to locate precisely as the ground has
several undulations in several directions from
1m to 2½-3m above ground level. Continuous
grass cover throughout field, no evidence of
stone/rock or distinguishable features to
pinpoint monument location. Several (4) long

photographic shots taken to demonstrate problem.

E

POTENTIALLY THREATENING FACTORS: (see Table 1)

1. Deep ploughing.
2. Cultivation works.
