Note - This site is within Walton basin - area of intensive  
 arable cropping - with rotation to grassland.

note the adjacent hedgerow as indicated  
on overlay has been recently  
in the typical Radnor crop + pleach style.  
Photos 03 05 01 + 03 05 05 - shows changes.

Monument was excavated in 1994! by CPAT and completely removed. Area was excavated and then area bulldozed flat. Feature has been cleared to exist.

CPAT refer to excavation as "destructive ~~excavation~~ archaeology."

Appearance as per 1997, but with winter barley obscuring any view of terrain  $\therefore$  no photos taken.

Under ESA agreement.
