improved farmland for grazing sheep.
prob occ. ploughed / reseeded.

D

DESCRIPTION/CONDITION OF MONUMENT:

forms hollow + irregularities + hunk in
hedgrows

some hollows have been filled in during
lifetime of present farmer.

otherwise grassed over

E

There appears to be evidence of ridge + furrow type
earthworks in area.

POTENTIALLY THREATENING FACTORS: (see Table 1)

little threat apart from normal agricultural
operations (eg shallow cultivation)

Monument in split ownership - perhaps more
difficult to manage.
