LAND MANAGEMENT:

SITE: *improved
farmland.
used for grazing + silage*

HALO:

D

DESCRIPTION/CONDITION OF MONUMENT:

*Very little to be seen on the ground.
Main field by farm has originally composed of
7 smaller fields, now enlarged to one.
Evidence of lines of field boundaries can be seen
Also at one point a small square flat area
bounded by stone - poss stone platform*

E

POTENTIALLY THREATENING FACTORS: (see Table 1)

*main threat is agricultural operation
but not damage already done (ie removal
of field boundaries).
little threat to present condition
no public access.*

lot of trampling + poaching around feeders
by sheep - field v. wet otherwise
little change.

Note an oak tree originally in hedgerows has
been blown down by the wind - this has
laded and been left ~~on~~ within halo (farmer
intends however to remove it soon) - can be seen in
