FOREST ENTERPRISE PROJECT 2003

1. INTRODUCTION

Cambria Archaeology was commissioned by Forest Enterprise to undertake a programme of field visits to selected archaeological sites within the forest plantations of FE's Llandovery Forest District. This project was effectively a continuation of FE's Welsh Heritage Assets project work carried out by Cambria and the Clwyd-Powys Archaeological Trust during 1998-2000. 82 sites were not visited by archaeological fieldworkers during the initial WHA project. It was intended that Cambria would begin visiting these sites during 2001-02, with the intention of visiting all 82 over a 5-year period. 19 of these sites were visited during 2001-02

1.1 Sites visited

The 2002-3 project has continued to address these sites in order to assess the condition, or indeed existence of such unevaluated sites. 47 sites were visited in 2003. Eighteen of these sites had been visited by other projects since the Welsh Heritage Assets project but had to be revisited for management recommendations to be made.

1.2 Field visits

The field visits were undertaken during January and February 2003 by a single archaeologist. The table below list the sites that were visited during this period. Notes, annotated maps and ground photographs were taken at these sites where appropriate and this material forms the project archive now held in the regional Sites and Monuments Record at Llandeilo.

PRN	745	BUARTH Y GARN	Compartment	210
PART OF	NPRN	100727	SAM	District Llanymddyfri
ROUND BARROW?;STANDING STONE?			NGR	SN55563033

Description

A possible standing stone on the summit of a hill. It is a large recumbent stone measuring 2.5m long x 1.1m wide x 1m thick. A scattering of stone to the northeast may be a former cairn.

Condition

The site is within 10m of the south-eastern edge of the forestry plantation. The conifers are densely planted.

Recommendations

Recommendations as in 2000. Clear all the vegetation within 15m radius of the stone and make the site accessible from the forest boundary. Treat the stumps and monitor regeneration.

Management Category	Visited On	24/01/03
---------------------	------------	----------

PART OF	NPRN	101795	SAM	CM033(CAM)
ROUND BARROW			NGR	SN47883348

Description

A large and well preserved, grass covered round barrow, c.15m in diameter and 3m high, in an area of clear-fell when visited in 2000 by Cambria Archaeology. A second barrow PRN 1817 is situated 400m away at the other end of the ridge.

Condition

Well preserved round barrow. Four large spruce stumps present on site. Site is clear and accessible from forest road.

Recommendations

Maintain in present condition. Monitor regeneration close to the site. Do not replant area within 10m of the base of the mound.

Management Category	A	Visited On	01/06/00

QUARRY			NGR	SN58773530

Description

Small disused quarry on a steep slope alongside a forestry drive. The quarry measures 10m x 5m by 3m deep.

Condition

Recommendations

Maintain this small quarry in its current condition.

Management Category	Visited On	16/01/03
---------------------	------------	----------

PRN	6559		RHYD-Y-FEDW	Compartment	55
PART OF		NPRN	106500	SAM	District Llanymddyfri
COTTAGE			Post Med	NGR	SN49613524

Description

A cottage measuring 13m by 4m and divided into three cells. A chimney existed at the east end. The cottage is surrounded by old field banks up to 1.3m high marking tracks, yards and fields.

Condition

Cottage represented by collapsed rubble walls that stand up to 0.8m high. Site is covered with fallen deciduous trees and scrub and lies in a dense coniferous plantation. The whole area is wet and boggy.

Recommendations

It is recommended that the saplings and small trees are cleared and that the coniferous woodland is felled for 20m around the cottage.

ROUND BARROW			Bronze Age	NGR	SN48073342

Description

A possible cropmark site of a round barrow seen on aerial photographs. The site is under re-planted conifers and no trace of it could be found in 2003.

Condition

Area has recently been cleared and replanted. No trace found of site in 2003.

Recommendations

Recommendations as in 2000. Monitor the area during course of normal forest management. If site identified, consider fencing off.

<i>Management Category</i>	<i>Visited On</i>	17/01/03

QUARRY			Post Med	<i>NGR</i>	SN63423342
<i>Description</i>					
A limestone quarry, 60m east-west, 40m north-south and up to 10m deep with vertical sides.					
<i>Condition</i>					
Partly overgrown. It lies in scrubby woodland on the edge of the forestry plantation.					
<i>Recommendations</i>					
Maintain as existing. Ensure that no dumping of rubbish takes place in the quarry.					
<i>Management Category</i>				<i>Visited On</i>	13/01/03

PRN	21354	PLASBACH	Compartment	203
PART OF	NPRN	121004	District	Llanymddyfri
COTTAGE		Post Med	NGR	SN530284

Description

A small, rectangular stone-built building on the west side of a tributary to the River Cothi. A trackway defined by mature yew trees runs down to Capel Cwm Cothi. This cottage may be part of a chapel community see PRN 21355.

Condition

Several collapsed trees overlying the walls. The best preserved wall is upslope (NW side) and stands up to 2m high.

Recommendations

Site was located during a period of low undergrowth. Clearance of the site still needs to be undertaken. Several trees have fallen across the walls and these need to be removed. Possible interpretative potential with the Chapel PRN 21355.

Management Category	Visited On	24/01/03
---------------------	------------	----------

PRN	21355	CAPEL CWM COTHI	Compartment	203
PART OF	NPRN	121005	District	Llanymddyfri
CHAPEL		Post Med	NGR	SN53002825

Description

Abandoned chapel situated on the eastern edge of forest. Inside the building is a plaque mounted on a stone plinth which reads "CAPEL CWM COTHI CAPEL UNDODAIDD CODWYD TUA 1792 GAN TOMOS GLYN COTHI." Entrance in the S wall into walled garden/courtyard

Condition

Survives as a small rectangular structure approximately 7m x 4m with walls surviving up to 1.5m high. The walls are roughly coursed drystone. Small area of internal paving and cobbling visible.

Recommendations

No immediate structural threat to the surviving walls. A significant amount of moss obscuring walls could be removed. The site has great potential for interpretative display, improvement of access etc. Historical research needs to be undertaken.

Management Category	Visited On	24/01/03
---------------------	------------	----------

PRN	21995	CWM-EINON FACH	Compartment	187
PART OF	NPRN	121645	District	Llanymddyfri
COTTAGE		Post Med	NGR	SN63183878

Description

The cottage is a 2 cell structure, the main cell/room measures c. 8m by 4m, with the second room attached to SE end measuring c.3m x 4m. Redundant banks up to 0.8m high mark paddocks and fields around cottage. 19th century pot, tile and brick found.

Condition

The SE gable/main chimney standing to over 2m, but other walls less than 1m.

Recommendations

Clear the saplings/trees that have rooted in and around the cottage. Ensure that the track that passes close to the cottage causes no further damage to the site.

Management Category	Visited On	14/01/03

PRN	22243	UNKNOWN	Compartment	107
PART OF	NPRN	121893	District	Llanymddyfri
COTTAGE		Post Med?	NGR	SN56483303

Description

In 1984 when this cottage was visited a part of one wall and a possible doorstep were visible. When the site was visited in 2003 a forestry track had removed all signs of it.

Condition

Site destroyed by a forestry track.

Recommendations

Site destroyed - no management recommendations.

Management Category	Visited On	16/01/03
---------------------	------------	----------

PRN	22406	LLWYN YR YN	Compartment	
PART OF	NPRN	122056	District	Llanymddyfri
FARMSTEAD		Post Med	NGR	SN596320

Description

A farmstead consisting of a stone-built cottage on the west side of a farmyard with further ranges of former farm buildings to north and east. The main cottage is 20m x 8m and was divided into three cells with smaller rooms added to the west.

Condition

All the buildings are in a ruinous condition. The cottage stands up to 10m high on the southern gable end. The ranges of farm buildings on the north and east now only survive as low stone walls. Not sure the site is in FE ownership.

Recommendations

Several large mature trees growing out of building and several young saplings growing out of walls need to be removed and stumps treated. One large conifer has fallen across northern end of main cottage and needs to be cleared.

Management Category	Visited On	24/01/03
---------------------	------------	----------

PRN	22541	TAN Y CAPEL	Compartment	105
PART OF	NPRN	122191	District	Llanymddyfri
COTTAGE		Post Med	NGR	SN54623336

Description

A rectangular cottage built of earth bonded stone rubble. The cottage measured 6m by 4m with a rubble built extension on the north side.

Condition

Ruined with walls up to 1.5m high. In a dense forestry plantation with deciduous saplings are growing on the cottage remains. The west end of the cottage has been truncated by an old forestry track.

Recommendations

Ensure that no further damage occurs to the site if the old forestry extraction track is reused. Clear the coniferous trees from within 10m of the cottage and remove the saplings off the building remains.

Management Category	Visited On	16/01/03
---------------------	------------	----------

PRN	22546		PANT TAWEL	Compartment	119
PART OF		NPRN	122196	SAM	District Llanymddyfri
COTTAGE			Post Med	NGR	SN55483420

Description

A cottage measuring 8m x 4m internally built of earth bonded stone rubble. A chimney is situated in the north gable, a door in the west wall and two windows in the east wall. Gardens and paddocks are defined by low rubble banks.

Condition

The walls stand up to 1 metre high. Low rubble banks mark the site of gardens, paddocks etc. Modern drainage ditches have been dug in the vicinity of the cottage.

Recommendations

This site is very confined by the conifer plantation. The conifers within 10m of the cottage should be felled and not replanted. The deciduous saplings on the cottage should be cleared.

<i>Management Category</i>	<i>Visited On</i>	16/01/03
----------------------------	-------------------	----------

PRN	22547		ESGAIR ONEN FAWR	Compartment	117
PART OF		NPRN	122197	SAM	District Llanymddyfri
MILL			Post Med	NGR	SN558336

Description

Two buildings and a waterwheel. The larger building is a rectangular stone rubble building measuring c.13m by 4m internally . A smaller building c. 5m by 4m lies immediately to the west. Remains of cast iron water wheel in its pit lie 20m to the west

Condition

Saplings and small trees are growing on the buildings. The larger building has walls standing up to 2m high but generally lower. The smaller building is reduced to very low stone walls.

Recommendations

Remove saplings and small trees that are growing on the building remains and water wheel. Forestry works - replanting etc - should not encroach to within 20m of this site.

<i>Management Category</i>	<i>Visited On</i>	16/01/03
----------------------------	-------------------	----------

PRN	30192		CORWS	Compartment	1107
PART OF		NPRN	128747	SAM	District Llanymddyfri
FARMSTEAD			Post Med	NGR	SN42653179

Description

A farmstead on a terrace cut into a steep slope within the fork of two old trackways. No obvious building plan can be seen but the remains of at least two and possibly four buildings are present.

Condition

The site is now very overgrown with brambles and saplings. Some walls exist up to 1.2m high but most are lower and reduced to rubble mounds. The main approach trackway to the farm from the west is very overgrown and reduced to a path.

Recommendations

Remove vegetation to leave a large area of clearance inclusive of trackways and buildings. Do not replant within 5m of trackway or farmstead buildings. Maintain old access road and lay boundary hedge.

COTTAGE		Post Med	NGR	SN63853865

Description

Site of a cottage straddling a boundary between forestry and pasture. The site lies on a terrace 10m long and 5m wide within the forestry. Earth boundary banks extend beyond the cottage & mark the position of old paddocks and fields in the pasture.

Condition

There are no structural remains and the area is covered in brambles.

Recommendations

Do not replant within 10m of the cottage site.

Management Category	Visited On	14/01/03

PART OF	NPRN	128761	SAM	District Llanymddyfri
COTTAGE		Post Med	NGR	SN62573926

Description

A rectangular dry stone building, 8m x 4m internally. A doorway faces east towards the stream, a chimney is at the southern end. A track leads down the steep slope from the south to the cottage and it is surrounded by old paddocks and fields.

Condition

The walls stand up to 0.5m high

Recommendations

Do not replant trees within 20m of this cottage. Otherwise maintain as existing.

Management Category	Visited On	14/01/03

PART OF	NPRN	128790	SAM	District Llanymddyfri
COTTAGE		Post Med	NGR	SN54173337

Description

Earth bonded, stone rubble cottage, 8m x 4m internally aligned E-W along an artificial terrace cut into a steep south facing slope. On the same terrace, 15m west of the cottage are the probable remains of an outbuilding. An old track runs close by.

Condition

The cottage is now mainly an earthwork except for the north wall which stands up to 2m high. The probable ancillary building is seen as earthwork banks.

Recommendations

Remove the saplings and other small trees growing on the remains of this cottage.

PART OF		NPRN	128792	SAM	District Llanymddyfri
COTTAGE			Post Med	NGR	SN51203363

Description

A cottage site shown as abandoned on 1964 Ordnance Survey map. Two tracks meet at the site of the cottage, one an older trackway, the other a disused forestry trackway.

Condition

Cottage has been destroyed by a forestry track and all that remains is rubble in coniferous forestry.

Recommendations

There are no management recommendations for this site.

Management Category	Visited On	17/01/03
---------------------	------------	----------

PRN	30240		PEN-RHIW-LWYD	Compartment	67
PART OF		NPRN	128793	SAM	District Llanymddyfri
FARMSTEAD			Post Med	NGR	SN50653294

Description

At least three mortared, stone rubble buildings sit on an terrace cut into the slope. The dwelling is probably represented by foundations 12m x 4.5m. The other buildings measure 8m x 8m and 6m x 4m. Earth boundary banks also exist.

Condition

The site is covered with scrubby deciduous woodland with many saplings and brambles. The walls of the buildings stand up to 1m high.

Recommendations

Clear the saplings and young trees off the foundations of the buildings. Fell conifers from a zone of 20m around the buildings and do not replant.

CHARCOAL BURNERS SITE			Post Med	NGR	SN513326

Description

Earthwork platforms on a very steep valley side in clear felled forestry may be the remains of charcoal burning platforms but that is not certain. They may be the remains of root plates of fallen trees.

Condition

The steep slope has recently been clear felled and a new extraction track has been driven across the slope. An old track or path runs above this following the contour. The platforms lie near this old track but how they were created is uncertain

Recommendations

The character and location of this site is not certain, therefore there are no management recommendations.

PART OF		NPRN	128799	SAM	District Llanymddyfri
FARMSTEAD			Post Med	NGR	SN52143184

Description

A former farmstead approached by a very clear holloway. The area of the farmstead is defined by stony banks which mark the position of yards and paddocks. No clear foundations of the buildings can be seen.

Condition

The site is in an area of dense coniferous forestry with an understorey of saplings, brambles , blackthorn and knotweed. The holloway is flanked by banks up to 2m high. The other banks are about 0.8m high.

Recommendations

No surface evidence for a building, however, it is recommended that when the coniferous forestry is clear-felled no replanting should take place within 20m of this site.

PART OF		NPRN	128806	SAM	District Llanymddyfri
COTTAGE			Post Med	NGR	SN55383379

Description

A cottage lying along a terrace cut into a steep slope. The cottage is 8m x 4m, 1.5 to two storeys high and built of mortared stone rubble. A rubble built extension c.6m long has been added to the south end and there is a small outshott to the west

Condition

The N gable stands to 4m, but generally the walls are less than 2m high.

Recommendations

Maintain as existing. Clear the saplings and small trees from the buildings. A forestry amenity track passes within 20m of the site, therefore there is a possibility of interpretation.

PART OF		NPRN	128838	SAM	District Llanymddyfri
FARMSTEAD			Post Med	NGR	SN49152793

Description

A rectangular building, 7m x 5m, at the base of a steep slope with walls of rounded uncoursed blocks. There is a probable entrance in the NE wall. A smaller stone structure PRN 30262 lies c.50m to the NE. The site was reached by a narrow steep track

Condition

Site now in thick forestry. The main building is ruinous, the SW wall survives to height of 2m. The NE wall is in poor condition. The trackway is overgrown.

Recommendations

An archaeological survey should fully record the site prior to felling. Windfall timber should be removed and bracken treated with herbicide. Complex to be maintained as open ground.
