

Bank & hillslope W side. Mrs Jones did not recognize the field name

Semicircular, faint bank & ditch seen on the top N corner of field by the gate: this does not extend into the next field. Commonly believed to be the cemetery of an old chapel. (cf PRN 5362) (Mentioned by Mrs Jones, Bettws, Mr Richards, Llwyn Croes)

The field has not been ploughed but when the main water supply was put down different earth layers could be made out in this corner: nothing was found during the work.

Mrs Jones, Bettws Nov 1983
Ellwans Nov 1983
