

42 No. 6

Henry's Moat

Tumulus

1299

In a strong position close to the church, with a deep declivity on the east. The mound is 16 feet high and about 17 yards in diameter.

Visited 16/10/72 BV RW

Motte about 35' dia. and 15' high, with remains of a ditch on West side, it probably never existed on the steep East side.

Possibility of Bailey to South. Now bracken covered, but well preserved.

PCM
