

I think this is a spurious site, generated by a clerical error by the OS. (Authority 1)
It is notable that no NGR is given for site "I"; perhaps their text, presumably a paraphrase of Grimes' original notes, should have read "H SN 0301 3622 Hut circle like 'F' Diam 8-9 paces ... (etc.)".
Such a description would indeed fit "H" (PR N 1450). There is no trace of another hut circle in the area.
