

COMMENT

Stone built, single storey building: domed
 zinc roof (not original). Walls ~4-5m
 high: the floor has been raised by about
 1m during the process of filling in pit
 where water wheel positioned.
 Water no longer flows along mill race
 but route: river → mill race → mill ponds
 piped under the road to a cement leat
 leading to the water wheel. Sluice gates
 regulated the flow.

AUTHORITY

Mrs Harrison, Glenview
 Capel Iwan.

ER Evans Jan 25, 1984
