Porthselau, St Davids - SM 726260 - short trial adit driven into cliff to west of stream. Probably a copper trial. No documentary evidence.

P.F. CLAUGHTON
1990

9. Name - not known

SM 726260

P.F. CLAUGHTON
1991

Parish - St Davids

District - Preseli Pems.

Short trial adit in base of cliff on west side of Porthselau; probably for copper.

Adit remains open.

No historical detail.

Not an obvious site though a deep cut into the coastal cliff may be a mining feature, it may also be natural? Murphy 1996.
