

31 No. 1 St. David's Head Circle

Circular enclosure of earth and stone.

2630

31 No. 2 St. David's Head Circle

2630

Similar construction construction (to 31 No. 1) but not so clear.

31 No. 4 St. David's Head Circle

2630

Similar to 31 Nos. 1 and 2. This circle forms the extremity of a line of wall which reaches the cliff to the northward of the entrenchment. Close by we picked up a well defined flint core.

The field system is more extensive than indicated on OS maps and runs close to the cliff edge in many areas. Low boundaries of rubble and boulders. Murphy 1996.
