31 No. 11 Br	urrows	ows Menapia 2632			SHESO
At this point of the burrows it is reported that foundations were demolished in building the sea wall, which the inhabitants believe represented the remains of a church which St. David attempted to found, but what was built by day was by some supernatural agency removed by night, so the Saint abandoned this site and selected another by the banks of the river Alun. They give expression to this opinion by calling it YR HEN EGLWYS. Coins were found at this spot but have unfortunately been lost.					NSGUL EVIJSUL SUL SOCIE
