25 GPS grid ref SN 75113 58211. Position approx as AP 77 92 265. No photos or plan made in PAW 24800 survey as too covered over or in too poor condition. Two probable parallel walls, approx. 1m apart. Max length of walls seen 2m. Aligned NE-SW. Constructed in south side of stream bank, with stream 4m away. walls approx 0.5m wide. could be a natural outcrop but unlikely. would need excavation to show more, as in tussock grass. PC 1495

261 E / 1495.
