

97 No. 7

"Old Hall"

3272

Has groined basement and old round chimney stack. Arch. Camb. IV, xi, 248, 333; IV, xii, 86.

Perhaps the greatest of these square chimneys is that on **Monkton Old Hall (5)** but despite this early specimen, it would seem likely that most chimneys of this form date from the 17th and early 18th Centuries.
