

The modern hedge line follows a circular course at the Northern part of the enclosure. At the southern end the hedge is not continued but there is a definite slope down away from the enclosure. The circular enclosure is approx 60m in diameter.

L. Weeks Feb 27th 1985

The land has not been ploughed for approx 40 years and Mrs Pugh felt that her husband (now retired) would not plough it in the future.

From conversation with Mr + Mrs Pugh Feb 27th 1985
