Valley

Camp

3556

This is on the crest of the hill. The bank has been lowered on all sides. It has been used as a hedge on the north and east; on the south it is about 10 feet high, and on the west about 6 feet. The camp inside measures from north to south 76 yards, and from east to west 75 yards.

A small, circular enclosure with  
a single bank & ditch

JH 1997 based on Cadw  
1997.
