- 85 No. 3 Begelly Round Camp 3640
- Close to the churchyard is a round camp 60 paces in diameter, a bank
- 5 feet high inside with a ditch round. It is interesting as being so
- near the church, and possibly the first church on this site accommo-
- dated the inhabitants of this little camp. This camp is not marked
- on the Ordnance map.

Part of lordship of Manorbier 1359.
