B - Cist, depression - sherds, bone, thong

C - Crem, depr. Flints(2), Food vessel

D - Crem, sherd - very disturbed.

1918 Arch - Camb

Ploughed down round barrow
in a field of cereal on red sandstone
soil. The field is ploughed every
year and thus the barrow
has been reduced in height since
the last visit by the O.S. It now
measures 29m in diameter x 1m
in height. Commands an
extensive view of the coast
from the Gower to Caldey Island.
See GP.

L. Weeks July 18th 1985.
