AUTHORITY

COMMENT Mr. J. Hubbard, water calls the field
Percy Lan Capel. He said that up until
~1933 there were the remains of a
building in the NW corner of the field.
Around this time however his father
cleared and flattened the area.
Four large slate slabs were taken from
here and used as gate posts etc; only
one now remains. Mr. Hubbard said
that there had been an inscription on
the stone but this is no longer
visible.

J. J. Husband, Wauna, Backe
