

Castell Mawr Hillfort.

Well Preserved Remains of an
enclosure site, on Castell mawr Farm.
Consisting of a bank & ditch, with
the slight remains of a outer
bank in its western end.

Entrance also seems to be in the
west, which probably accounts for
the extra defence bank c. 1.2m
high with the ditch 0.7m deep in
places. No trace of the bank & ditch
could be seen on its Southern Part.

A.S. Maull
24.2.84.
