

106 No. 4

Manorbier

Columbarium 4212

Norman columbarium, quite perfect, with L-shaped pigeon holes (no sign of pivot stone for aldder). See Chancellor Fergusson's brochure on "Dove Cotes".

Circular, mediaeval clovercot, 6m in diameter, and 8m high. Square nest boxes line the inside of the wall and there is a hole in the centre of the domed roof for access for the pigeons.

JH based on CADW 1994
