

Marked on OS 6 inch as "TUMULUS". SCHEDULED
AS TUMULUS - MARKED ON OS RECORD MAP AS
MOTTE (OS CARD NOT AVAILABLE). LISTED
BY NMR AS MOTTE
LISTED BY W.O. AS ROUND BARROW

Castell Cassan. The much mutilated
remains of a round barrow/motte,
standing 2.6m high in the middle
of a rough pasture field.

Mutilations are to be found all over
the mound, especially on the northern
half of the site. A possible ditch can
be seen to the NE & west side
of the mound.

Mutilations seem to be caused by
horses, which have a free run of
the field.
