

107 No. 4

Roche Point

Rock Shelter (2)

Here was found a bronze sword handle. (In 1880 Lord Cawdor told me there was a legend that a king was burned here on a golden bedstead. We dug and found the bones of a human foot (E.L.) Fenton, 417. Little England, 26. The recollection of a grand funeral, which took place in the Bronze Age, is remarkable.
