

7302 6293

g. Bryngwyn Bach 1 (fig. 7; surveyed 1980) SN 76 SW 1302 0295
 Situated on a NW-facing slope at c. 360 m OD. The cairn is turf-covered and apparently undisturbed. It measures 5.5 m (NW-SE) \times 5 m with a height of 0.75 m. A large earthfast slab leans against the cairn on the S. It measures 0.9 m long, 0.9 m wide and 0.3 m thick. There is no further evidence of structure. A cairn of similar dimensions, though undistinguished, lies 15 m to the W.
