

NUMBER 13 GROUP (SOUTH WALES)
ROYAL OBSERVER CORPS CARMARTHEN

Post 41 LAUGHARNE

Location On St John's Hill, Laugharne

National Grid Reference N 290999

Directions to reach the Post (to be detailed and explicit, assuming that the person following the directions has no knowledge of the area and is travelling in the most direct route from Group Headquarters. Include a sketch map on the reverse of these instructions).

1. Take the A4066 from St Clears to Laugharne
Proceed through Laugharne itself until you arrive at the very last cottage on the left side of the village.
Here you leave the main road and turn sharply left onto a narrow tarmac farm lane.
2. Follow this lane up the hill ignoring both the forks to the right and to the left.
3. You shortly round a very sharp bend and climb steeply towards a gateway.
4. Continue on through this gateway and travel across the field (still on tarmac) until you are approximately fifty yards away from the farm area.
5. You should now be able to see the ROC lookout tower and from this position it would be advisable to stick to the higher ground (can become boggy).
6. If unable to distinguish the Tower, make your way south-westerly heading towards the far corner of the field, and to where the Post is situated.
