Trysor is a Registered Organisation with the Institute for Archaeologists and both partners are Members of the Institute for Archaeologists, www.archaeologists.net .

Jenny Hall (BSc Joint Hons., Geology and Archaeology, MifA) had 12 years excavation experience, which included undertaking watching briefs prior to becoming the Sites and Monuments Record Manager for a Welsh Archaeological Trust for 10 years. She has been an independent archaeologist since 2004 undertaking a variety of work that includes upland survey, desk-based appraisals and assessments, and watching briefs.

Paul Sambrook (BA Joint Hons., Archaeology and Welsh, MifA, PGCE) has extensive experience as a fieldworker in Wales. He was involved with Cadw's pan-Wales Deserted Rural Settlements Project for 7 years. He also undertook Tir Gofal field survey work and watching briefs. He has been an independent archaeologist since 2004 undertaking a variety of work including upland survey, desk-based appraisals/assessments, and watching briefs.

1. Summary

1.1 This historic environment appraisal has been undertaken by Trysor to examine likely impacts on the historic environment from a proposed wind turbine at Danybanc Farm, Bancycapel, Carmarthenshire.

1.2 The appraisal has looked at all known historic assets within an area measuring 2km in radius, focused on SN4354514912, the location of the proposed turbine, consulting the regional Historic Environment Record and the National Monuments Record, as well as examining historic maps. A field visit was also undertaken to examine the location of the turbine and record previously unknown historic assets.

1.3 The appraisal shows that there is no surface evidence of buried archaeological features at the proposed development site.

1.4 One Scheduled Ancient Monument would experience Very Low, indirect visual impact due to intervisibility with the proposed turbine at distance. No Listed Building in the revised appraisal area would be affected by the development.

1.5 The appraisal shows that no significant direct, physical impact or significant indirect, visual impact would be caused to the historic environment by the proposed turbine.

1.6 On the basis of this appraisal, no archaeological mitigation is thought necessary for the proposed development.

2. Copyright

2.1 Trysor holds the copyright of this report. Further copies may be made of this report without gaining permission to reproduce but it must be noted that Figures 3 and 5 include other copyrighted material and should not be copied.

3. Introduction

3.1 Mr Martin Horne of WinDS Ltd of Gwelfor, Castlemorris, Pembrokeshire SA62 5XA on behalf of his client, Mr Eirian Knott of Danybanc, Bancycapel, Carmarthen, SA32 8EB, commissioned Trysor heritage consultants to write an Historic Environment Appraisal for a proposed turbine at Danybanc, Bancycapel, Carmarthen, SA32 8EB, prior to a planning application being submitted.

3.2 Dyfed Archaeological Trust Heritage Management section has written a generic brief for such appraisals (DAT HM, Undated). These appraisals are intended to be a rapid appraisal of the readily available historic environment information including a site visit. The purpose of the appraisal is to inform DAT HM as to whether any further assessment or evaluation would be required as part of the planning process. Trysor prepared a specification based on the brief (Trysor, 2014) and Dyfed Archaeological Trust Heritage Management section approved the specification as fit for purpose.

4. The proposed development

4.1 It is proposed that a turbine, with a hub height of 24m, and 34m to the upright blade tip, will be located at approximately SN4354514912 in a single field parcel at Danybanc, Bancycapel, Carmarthenshire, see Figure 1.

4.2 The turbine will require a foundation hole, approximately 6 metres square and 1.5 metres deep. The cable trench will run approximately 60 metres to the north-northwest to an existing electricity post. Access will be via existing trackway and gateways using a temporary trackway across the field to the turbine site.

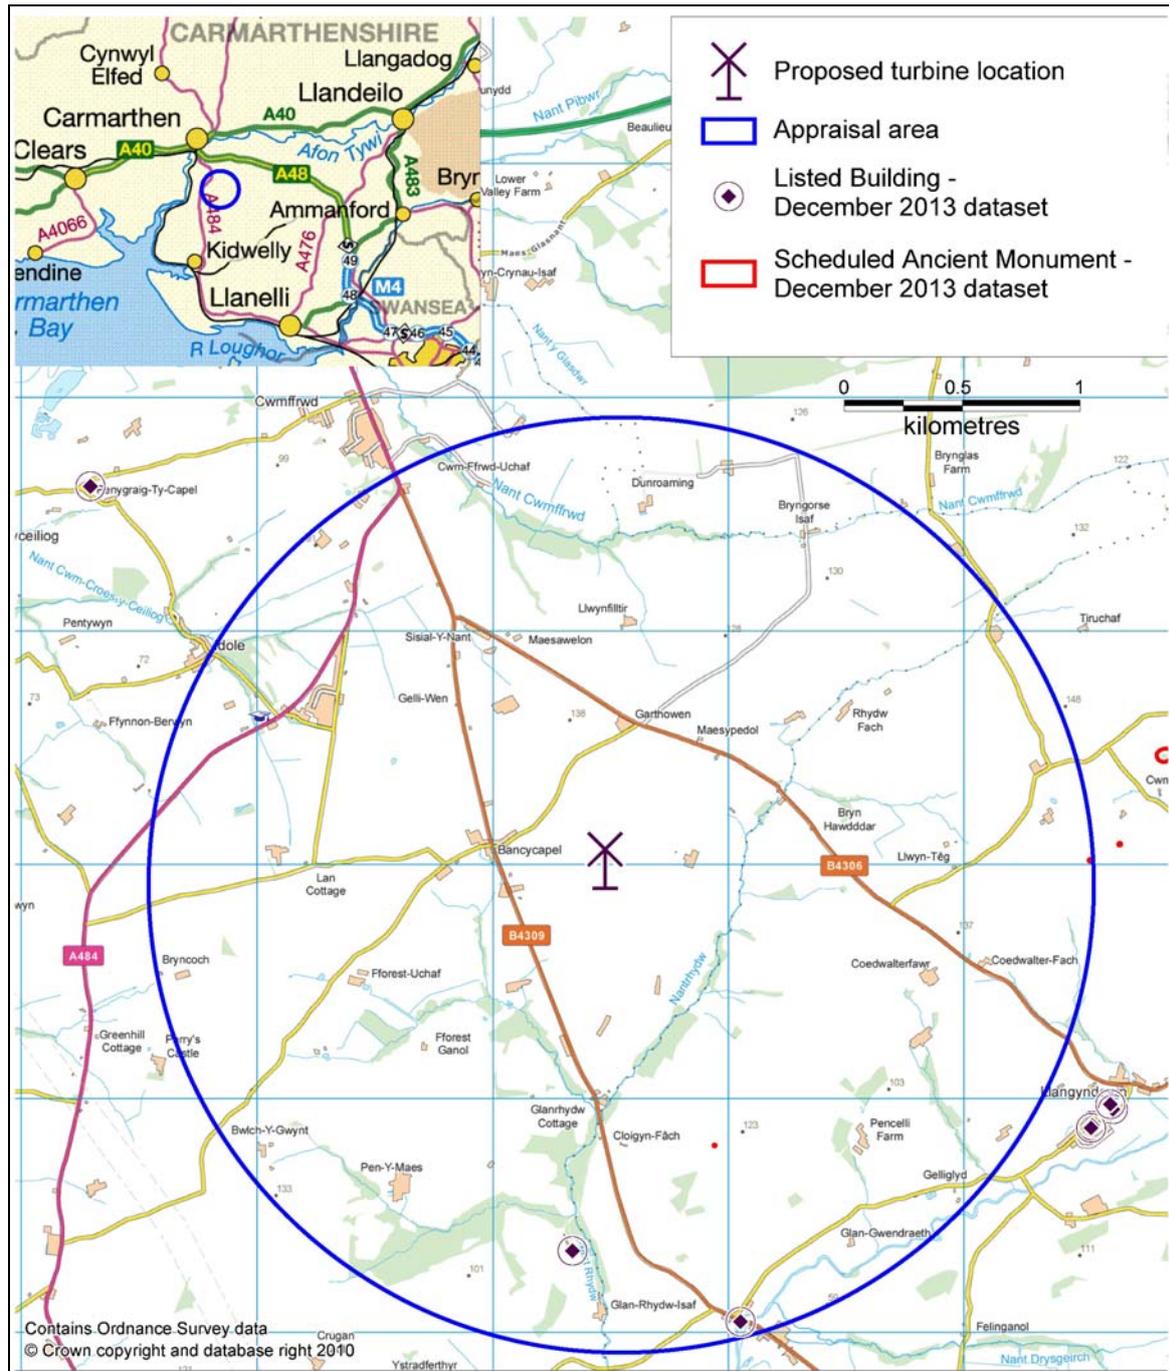

Figure 1: Location of the proposed turbine, showing the 2km radius appraisal area.

5. Methodology

5.1 A study area of 2km radius circle centred on SN4354514912, the proposed turbine site, was chosen for the initial appraisal of sites. This area was revised to exclude four areas of lower-lying land within the 2km radius area from which the proposed turbine would not be visible (see Figure 2).

5.2 The HER enquiry for the 2km radius area yielded 141 records. The revised appraisal area included 90 records, 8 of which were removed from the dataset because they were duplicated or mislocated sites. This left 82 records in the revised appraisal area.

5.3 Within the 82 records, two were Scheduled Ancient Monuments and one was Listed Building.

5.4 A site visit was made to Danybanc and the surrounding area on March 12th 2014 to rapidly appraise if there were any visible archaeological features within the area directly affected by the turbine proposal and also the wider landscape context of the proposed development. The field was under pasture at the time.

5.5 The aerial photographs on Google Earth, dating to 2005, 2006 and 2009, were used to inform the appraisal.

5.6 Historic mapping was consulted. The maps used included 19th and 20th century 1:2500 scale Ordnance Survey mapping and the Llandyfaelog parish tithe map of 1844 and accompanying tithe schedule of 1842.

5.7 All information gathered during the desktop appraisal and fieldwork was entered into a bespoke database in Access 2003 format to create an appraisal dataset. The dataset is the source of the material output in this report, including the GIS mapping which illustrates the location of sites in the area, and the tables and appendices which provide detailed information on the sites within the study area.

5.8 At the end of a rapid appraisal of the data, the information from the site visit and historic map search, the appraisal dataset contained 84 records. Two new records were created in the project database by Trysor. These were for the field system at Danybanc and a trackway which runs to the proposed turbine site (ID numbers 83 & 84).

5.9 Each of the records in the final appraisal dataset was assessed for Period, Rarity, Documentation, Group Value¹, as well as Evidential Value, Historical Value, Aesthetic Value, Communal Value². Once these had been considered the significance of each site was determined and scored in accordance with the categories adopted by the Welsh Archaeological Trusts i.e. Nationally Important, Regionally Important, Locally Important, Minor and Features Needing Further Investigation (Unknown), see Figure 3. Full details of this exercise are given in Appendix C.

5.10 As this exercise is an appraisal of the study area, not a full desk-based historic environment assessment, no site descriptions have been included in the appraisal dataset or this printed report, apart from newly recorded features (See Appendix B).

¹ Period, Rarity, Documentation and Group Value are criteria defined in the Welsh Office Circular 60/96, 1996.

² Evidential Value, Historical Value, Aesthetic Value and Communal Value are criteria defined in Cadw's Conservation Principles publication, 2011.

6. Danybanc: Historical overview

6.1 Buildings are shown at the site of Danybanc farm on the Ordnance Survey's Original Surveyors Drawings Carmarthen map sheet, surveyed in 1811, although its name is not shown. This was the first detailed map of the whole country and it appears to show that the farmyard was already in its present position. It also shows a group of buildings to the south-southwest which may be of relevance. The Surveyors Drawings do not often show field boundaries in detail, but the field in which the proposed turbine would stand, and its adjacent field parcels, are represented on this map sheet. The access trackway which now runs from the roadside at Danybanc to the proposed development site is not shown however. A track is shown which begins at the same point close to Danybanc but turns north-northeast instead of proceeding eastwards along the line of the present trackway.

6.2 When the Ordnance Survey published their 1 inch to 1 mile scale First Series map for the area in 1831, based on the 1811 survey, essentially the same picture is presented. There are some differences when compared with the 1811 map however. The 1834 map does not show any field boundaries, but it clearly shows that the access track to the proposed development site is in place by this time. Interestingly, it also seems to label the group of buildings c.150 metres to the south-southwest of the present Danybanc farm as *Tan-y-banc*. The significance of this is not immediately apparent but the parish tithe map may offer an explanation.

6.3 The first detailed map of Danybanc farm and its field system is the Llandyfaelog parish tithe map of 1844, see Figure 4. Interestingly, this map names the property as *Dan y Capel*, which may suggest that the original Danybanc was indeed situated to the south-southwest, but that the name transferred to the present farmstead by the mid-19th century. This map is damaged and two of Danybanc's fields are missing, but otherwise it shows that the field system of the farmstead was broadly similar to the present layout. At this time the tenant was Jane Harries and the owner William Brigstocke and the holding was just over 64 acres in extent. The field names, as recorded on the schedule that accompanies the tithe map were;

392 Waun bont	393 Park y llyn
394 Llan	395 Shibanog
396 Park glass issa	397 Park glass ucha
398 Park ysgubor	399 Park Crimp
403 Park y fald	404 Dan y capel homestead
405 Waun	406 Llain
407 Park y defaid	408 Waun bwll
409 Croes bren	

Field parcel 410 was named Cae Newydd and was part of *Ishcwm* farm at that time, which was owned by Mary Roberts and tenanted by Charles Griffiths

6.4 The detail of the farmyard layout is not represented clearly enough on the tithe map to make a comparison with the present layout. The layout shown on the 1888 and 1906 1:2500 Ordnance Survey maps does compare quite closely with the modern arrangement of buildings at the core of the farmstead, with the house to the north of the farmyard and a longer, rectangular outbuilding to the south of the yard. It is worth noting that three buildings are also shown 150m to the south-southwest at the site of what may have been the

original Danybanc. The 1888 Ordnance Survey map and all later maps name Danybanc in its present position however, with the Danycapel name seemingly forgotten.

6.5 By the publication of the 1970 edition of the 1:2500 Ordnance Survey map, another farm building had appeared just to the south of the historic core of the farmstead. By the end of the 20th century, a series of much larger agricultural sheds had appeared to the east, on the opposite side of the main road, where the main focus of activity has continued into the 21st century.

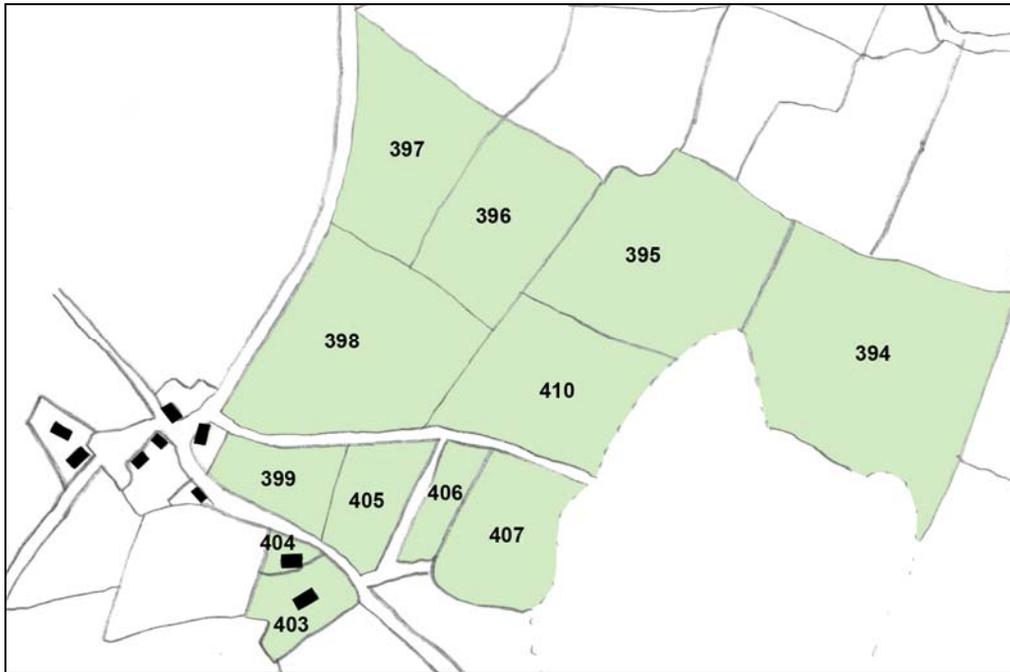

Figure 4: Danybanc farm, then known as 'Danycapel' - as shown on the Llandyfaelog parish tithe map of 1844

6.6 Llandyfaelog census returns give some insight into the inhabitants of the farmstead during the 19th and early 20th centuries.

6.6.1 The earliest available census dates to 1841. This shows that Jane Harries, then aged 76, farmed 'Danycapple' with the assistance of three male agricultural labourers and three female servants, who all lived at the property.

6.6.2 By 1851 the name of the property appears to have changed to Danybank, at that time occupied by a 40 year old agricultural labourer named David Thomas, from Kidwelly, and his wife Margaret and a young daughter.

6.6.3 In 1861 a William Thomas, who originally came from Kidwelly, farmed 60 acres here. He was aged 70 and lived with his 12 year old son David, employing a dairy maid.

6.6.4 In 1871, another William Thomas, again aged 70 but a native of the parish of Llandyfaelog, is recorded as farming 65 acres at Danybanc. He employed two male farm servants, a dairy maid and a female general servant.

6.6.5 A new family had occupied Danybanc and its 65 acres by 1881, when Isaac Daniels, aged 35 and a native of Abergwili, farmed here. He lived with his wife Margaret, two young daughters and an infant son. A female farm servant also lived here at this time. By 1891, Isaac and Margaret lived with one daughter and one son, employing a female general servant and Isaac's brother David as a farm labourer. The family continued to farm Danybanc in 1901 with William, their 20 year old son, now working alongside his father and their daughter Frances, aged 24, also still living at home.

6.6.6 The last available census returns date to 1911. This found Isaac and Margaret Daniels still in residence, both aged 69. William was still working at home, aged 30. Their 6 year old grand-daughter was also staying with them, presumably the child of their daughter Frances. A female servant employed by the family also lived with them.

6.6.7 The 1920 edition of Kelly's Directory for South Wales and Monmouthshire lists a John Jones as the occupant of Danybanc farm. He may well be the first member of the Jones' family which continues to farm the property in 2014, who have lived here since before the Second World War (pers com).

7. Danybanc: Proposed turbine site

7.1 The proposed turbine at Danybanc is to be located at SN4354514912 in a pasture field, about 400 metres to the east-northeast of the farmyard complex. An existing farm trackway will be used to access the field, with a temporary track laid to access the turbine site within the field. A cable trench will run to an electricity pole set in the boundary bank at the northern side of the field, to connect to the electricity supply.

7.2 When the proposed development site and its environs were visited in March 2014, an assessment was made of the intervisibility of key monuments in the local landscape with the turbine site. This assessment was undertaken on a sunny day, with good visibility, though with some haze in the distance.

8. Impact Assessment

8.1 Within the revised area a total of 84 sites were recorded in the appraisal database.

8.2 The Direct and Indirect impact on each site was assessed taking into account both physical and non-physical impacts. Each impact was assessed within the scale Very Low, Low, Moderate, High and Very High, taken into account the significance of the site and the nature of the impact. A full table is found in Appendix A but a summary is tabulated in Table 1 below and illustrated in Figure 5.

8.3 As Table 1 and Appendix A show, no recorded historic assets within the area of the appraisal were determined to be exposed to any significant impact from the proposed turbine development. Details of the appraisal for direct and indirect impact for each of the sites in Table 1 can be found in Appendix A.

8.4 An examination of the proposed development site identified no evidence of surface material of archaeological interest. The land was under pasture with very little exposure of the underlying soil surface.

8.5 Access to the field would be via an existing trackway and through an existing gateway with a temporary track used within the field. There would be no impact on any recorded historic assets.

8.6 No historic field boundaries will be affected by the cable trench as it will connect to an existing electricity pole set the field boundary to the north of the proposed turbine.

9. Historic Landscape Aspects Relating to the Danybanc Proposed Turbine

9.1 The following aspects of the historic environment around the Danybanc proposed turbine site have also been considered by this appraisal, as required by the brief supplied by the Dyfed Archaeological Trust Heritage Management Section (DAT, HM, Undated);

a) Scheduled Ancient Monuments in their settings

There are 2 Scheduled Ancient Monuments within the revised appraisal area, see Table 2. These are both Bronze Age standing stones. Only the Pistyll Gwyn Standing Stone (ID number 3) would be intervisible with the proposed turbine and experience a Very Low, indirect, visual impact.

ID number	SAM Number	Site Name	Site Type	Level of Impact
2	CM123	GARREG FAWR;PENCELLI	STANDING STONE	None
3	CM122	PISTYLL GWYN	STANDING STONE	Very Low

Table 2: Impacts on Scheduled Ancient Monuments

b) Previously Recorded Non-scheduled Ancient Monuments in their settings

Two Non-scheduled historic assets in the appraisal area are thought likely to experience a Low indirect, visual impact from the proposed turbine. A further 16 would experience a Very Low, indirect, visual impact. These are all post-medieval cottages, houses or farmsteads. None would experience and adverse impact on their settings. Potential impacts on Non-scheduled Ancient Monuments are included in Appendix A and Table 3. The significance of Non-scheduled Ancient Monuments is addressed in Appendix C.

ID Number	Site Name	Site Type	Level of Impact
31	UNKNOWN	COTTAGE	Low
32	DAN Y CAPEL;DAN Y BANC	FARMSTEAD	Low
29	BLAEN RHYDW FACH	DWELLING	Very Low
30	FFOSWALTER	HOMESTEAD	Very Low
36	CAPEL	HOMESTEAD	Very Low
38	GELLYDW;GELLIDDU	HOMESTEAD	Very Low
39	GELLI-WEN	COTTAGE	Very Low
41	FFOREST GANOL	HOMESTEAD	Very Low
42	DYLLGOED;GWYNFRYN	COTTAGE	Very Low
43	FFOREST;FFOREST ISAF	HOMESTEAD	Very Low
45	BWLCH-Y-GWYNT	HOMESTEAD	Very Low
67	RHYDW;RHYDW FACH	FARMSTEAD	Very Low
68	PANT CLYD;PANTCLYDD	FARMSTEAD	Very Low
70	LLWYN TEG	FARMSTEAD	Very Low
73	PEN Y PLWYF	FARMSTEAD	Very Low
74	CLOS TEG;CLOS DEG	FARMSTEAD	Very Low
76	BRYN YR AUR; BRYN YR AWYR	COTTAGE	Very Low
77	COEDWALTER FAWR	FARMSTEAD	Very Low

Table 3: Impacts on Non-scheduled Ancient Monuments

c) Newly identified sites of historic importance

Two newly recorded sites of historic importance were noted for this appraisal at or near the turbine site. These are the field system at Danybanc farm (ID number 83) and the farm trackway that connects the farmyard with the fields at the eastern side of the holding (ID number 84). Both would experience a Very Low level of direct or indirect impact. The details of these sites are included in Appendices A, B & C.

ID Number	Site Name	Site Type	Level of Impact
83	DANYBANC	FIELD SYSTEM	Very Low
84	DANYBANC	TRACKWAY	Very Low

Table 4: Impacts on Newly Identified sites

d) Listed Buildings in their settings

There is only one Listed Building within the revised appraisal area. This is the mansion at Glanrhyd (ID number 24). The turbine would have no impact on the setting of the mansion as mature trees close to the mansion block the view between the two locations.

ID Number	Site Name	Site Type	Level of Impact
24	GLANRHYDW	MANSION	None

Table 5: Impacts on Listed Buildings

e) Non-statutory buildings of local importance

One Non-statutory building of local importance lies within the revised appraisal area. This is the Methodist Chapel at Banc y Capel (ID number 20), which would experience a Very Low level of visual, indirect impact due to the proposed turbine being visible from distance from its location. The settings of the chapel would not be affected by the development however.

ID Number	Site Name	Site Type	Level of Impact
20	BANC Y CAPEL CALVINISTIC METHODIST CHAPEL	CHAPEL	Very Low

Table 6: Impacts on Non-statutory buildings of local importance

f) Registered Parks & Gardens and their essential settings.

There are no Registered Parks and Gardens within the revised study area.

g) Registered Historic Landscapes

The development site does not lie in a Registered Historic Landscape.

h) Non-registered Historic Landscapes

The turbine would not be located within one of Carmarthenshire's Special Landscape Areas.

i) LANDMAP and landscape characterisation information

The proposed turbine would stand in the extensive Llandyfaelog-Llangyndeyrn LANDMAP Historic Landscape Aspect Area (CRMRTL39492). This is a large agricultural area, characterised by medium and large irregular field enclosures, with dispersed farmsteads. Its overall evaluation is Outstanding. The proposed turbine would not have a significant impact on the essential character of the area, as the development would not cause damage to existing field boundaries or associated landscape elements.

j) Conservation Area

There are no Conservation Areas within the revised study area.

k) Tir Gofal interests or requirements

No Tir Gofal interests were identified.

l) Buried archaeological potential

During the field visit, no physical, visible evidence was noted suggestive of significant buried archaeology at the proposed development site. There is also no documentary, cartographic or aerial photographic evidence of buried archaeology at the proposed location for the turbine.

m) Palaeoenvironmental potential

No palaeoenvironmental potential can be identified at the Danybanc turbine site. It is situated in a well-drained, pasture field.

n) Hedgerows and field patterns

The proposed development would be located in a pasture field which is shown as enclosed land on the 1811 OS surveyors' drawings. The field system is characterised by irregular field shapes and mostly defined by earthwork boundary banks, up to 1 metre high and generally topped with thorn hedging, with some gorse also present. The proposed development will not change the character of the field system or affect any field boundary banks.

o) Ancient woodland

There are no Ancient and Semi-natural Woodlands within the appraisal area.

p) Place-names

There are no significant place-names closely associated with the proposed turbine site.

q) Cumulative impact

Several existing wind turbines could be seen from the proposed turbine site. The closest lies on the neighbouring holding of Gelliddu, perhaps 0.5km to the north-northwest. To the east, two turbines can be seen beyond Llangyndeyrn village, over 5km to the east-southeast. A single turbine could be seen in the direction of Mynydd y Garreg, some 5km to the south. A smaller-scale turbine could also be seen about 1km away, on high ground to the northwest of Banc y Capel.

r) National Park

Danybanc is not situated close to any National Park.

10. Conclusion

10.1 There would not be a significant impact on the historic environment or on individual historic assets in relation to the proposed development of the proposed wind turbine at Danybanc.

10.2 There are two Scheduled Ancient Monuments within the revised appraisal area, both Bronze Age Standing Stones, namely Pistyll Gwyn (ID number 2) and Garreg Fawr (ID number 3). Only Garreg Fawr would be intervisible with the turbine, and would experience a Very Low indirect, visual impact due to intervisibility at distance.

10.3 There is only a single Listed Building in the revised appraisal area. This was the mansion at Glanrhydwr (ID number 24), which would not be intervisible with the proposed turbine.

10.4 Two historic assets would experience a Low indirect, visual impact, based on the visibility of the turbine at distance and a further 19 would experience a Very Low indirect, visual impact. These latter sites include the post-medieval chapel at Banc y Capel (ID number 20), but most are post-medieval cottages, houses or farmsteads and the settings of these sites would not be compromised by the development.

10.5 On the basis of this appraisal no archaeological mitigation is thought necessary.

11. Reporting

11.1 Copies of this report will be provided to the client and the Regional Historic Environment Record.

Appendix A: Danybanc Impacts

Danybanc, Bancycapel, Carmarthenshire, Historic Environment Appraisal

ID number: 1 CAPEL CHAPEL
 LLANGYNHEIDDON;CAPEL
 KENEYTHAN;LLANGENHY
 THEN CHAPEL
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None The site of the medieval chapel of ease has been lost although one tradition suggests that the Methodist chapel at Banc y Capel was built on the site of the original chapel of ease.

=====
ID number: 2 PISTYLL GWYN STANDING STONE
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None A slight rise in ground level and mature trees along the hedgerow to the west of the stone are likely to block the view towards the proposed turbine 2km to the west.

=====
ID number: 3 GARREG FAWR;PENCELLI STANDING STONE
Is there a Direct Impact: No
Is there an Indirect Impact: Yes Intervisibility
Overall Impact: Very Low The proposed turbine would be visible 1.3km to the north-northwest but would not impact on the setting of this monument. The view would be partly screened by trees in the hedgerow at the end of the field.

=====
ID number: 4 CLOSTEG STONE INSCRIBED STONE
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None This stone was reported as destroyed c.1966 according to the Ordnance Survey card for the site.

=====
ID number: 5 CAPEL FARM UNKNOWN;EARTHWORK
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None Reports of earthwork mounds in the vicinity of Capel farm were reported in 1917 but their location not plotted and no evidence of them has been identified since.

Danybanc, Bancycapel, Carmarthenshire, Historic Environment Appraisal

ID number: 6 CAPEL CHAPEL
 BRYNACH;BRONACH
 CHAPELL;ST BERNARD'S
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None The site of this medieval chapel of ease has not been identified in modern times.

=====
ID number: 7 LLANFACH;LAN CHURCH LAND?
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None No archaeological features have been recorded in association with this place name taken from the parish tithe schedule.

=====
ID number: 8 PARK YR HENWAL UNKNOWN
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None There are no archaeological features recorded in association with this place name.

=====
ID number: 9 WAL PARK UNKNOWN
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None No archaeological features have been recorded in association with this place name taken from the parish tithe schedule.

=====
ID number: 10 CAE HEN WALL UNKNOWN
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None No archaeological features have been recorded in association with this place name taken from the parish tithe schedule.

=====
ID number: 11 PARK Y GRAIG STANDING STONE?
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None No archaeological features have been recorded in association with this place name taken from the parish tithe schedule. Graig refers to bedrock, not archaeological remains.

=====

ID number: 12 CAE MAEN STANDING STONE?
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None No archaeological features have been recorded in association with this place name taken from the parish tithe schedule.

=====

ID number: 13 PARK MAEN LLWYD STANDING STONE?
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None No archaeological features have been recorded in association with this place name taken from the parish tithe schedule.

=====

ID number: 14 CAE MAEN STANDING STONE?
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None No archaeological features have been recorded in association with this place name taken from the parish tithe schedule.

=====

ID number: 15 LLAIN PEN Y GAR ROUND BARROW?
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None No archaeological features have been recorded in association with this place name taken from the parish tithe schedule.

=====

ID number: 16 WERN YSGOB CHURCH LAND?
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None No archaeological features have been recorded in association with this place name taken from the parish tithe schedule.

=====

ID number: 17 PISTYLL GWYNN HOLY WELL
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None The spring is now hidden in a densely wooded parcel and the proposed turbine would not be visible from here.

=====

Danybanc, Bancycapel, Carmarthenshire, Historic Environment Appraisal

ID number: 18 BWLCH Y GWYNT UNKNOWN;ROAD;EARTHWORK
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None These features appear to be a combination of drainage features and grubbed out boundary banks.

=====
ID number: 19 CLOS TEG HENGE?
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None This 'henge' was reported from aerial photos in the 1980s, but a PFRS field visit by DAT in 2001 found no trace of such a feature on the ground.

=====
ID number: 20 BANC Y CAPEL CHAPEL
 CALVINISTIC METHODIST
 CHAPEL
Is there a Direct Impact: No
Is there an Indirect Impact: Yes Intervisibility
Overall Impact: Very Low The proposed turbine will be visible, nearly 600m to the east-south east but would have no impact on the setting of this chapel.

=====
ID number: 21 CAE POUND POUND?
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None No archaeological features have been recorded in association with this place name taken from the parish tithe schedule.

=====
ID number: 22 CAE FFYNNON WELL?
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None No archaeological features have been recorded in association with this place name taken from the parish tithe schedule.

=====
ID number: 23 CAE FFYNNON WELL?
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None No archaeological features have been recorded in association with this place name taken from the parish tithe schedule.

ID number: 24 GLANRHYDW MANSION
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None Mature woodland to the north of the mansion would block the view towards the proposed turbine.

=====
ID number: 25 OAKLANDS MANSION
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None The proposed turbine is unlikely to be visible from this location as mature trees screen the view to the southeast.

=====
ID number: 26 LLWYN-YR-EOS HOMESTEAD
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None It is unlikely that the proposed turbine would be visible from this site as higher ground intervenes.

=====
ID number: 27 FOX HOLE INN INN
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None This inn no longer exists and its site is not wooded.

=====
ID number: 28 TY'R BACH;EITHIN MAN;GARTHOWEN HOMESTEAD
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None Adjacent farm buildings seem likely to block the view towards the proposed turbine from this dwelling.

=====
ID number: 29 BLAEN RHYDW FACH DWELLING
Is there a Direct Impact: No
Is there an Indirect Impact: Yes Intervisibility
Overall Impact: Very Low The proposed turbine would be visible 580 metres to the west-southwest.

=====

Danybanc, Bancycapel, Carmarthenshire, Historic Environment Appraisal

ID number: 30 FFOSWALTER HOMESTEAD
Is there a Direct Impact: No
Is there an Indirect Impact: Yes Possible intervisibility
Overall Impact: Very Low The view towards the proposed turbine, 350m to the west-southwest, would be screened or perhaps blocked by a rise in the land and some trees along the hedgerow.

=====
ID number: 31 UNKNOWN COTTAGE
Is there a Direct Impact: No
Is there an Indirect Impact: Yes Intervisibility
Overall Impact: Low The proposed turbine would be visible 530m to the east-southeast.

=====
ID number: 32 DAN Y CAPEL;DAN Y BANC FARMSTEAD
Is there a Direct Impact: Yes The proposed turbine would stand in one of the holding's fields. The proposed development site would be accessed via a farm trackway, with a temporary track laid to the turbine site.
Is there an Indirect Impact: Yes Visual impact on the holding's fieldscape.
Overall Impact: Low Steps can be taken to avoid or reduce most impacts. The cable trench will not leave the field where the turbine would stand. The turbine would be visible from adjacent fields.

=====
ID number: 33 TANYBANC DWELLING
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None This farmstead had been demolished by the start of the 20th century and no traces of it now remain.

=====
ID number: 34 UNKNOWN COTTAGE
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None This cottage was demolished by the time of the 1888 1:2500 Ordnance Survey map and the land converted to pasture. No trace of it remains.

=====
ID number: 35 UNKNOWN COTTAGE
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None This cottage was demolished and the area landscaped in the 20th century.

=====

Danybanc, Bancycapel, Carmarthenshire, Historic Environment Appraisal

=====
ID number: 36 CAPEL HOMESTEAD
Is there a Direct Impact: No
Is there an Indirect Impact: Yes Possible intervisibility
Overall Impact: Very Low Partial views of the proposed turbine may be possible but other buildings seem likely to screen much of the view to the southeast.

=====
ID number: 37 RED COW PUBLIC HOUSE
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None The Red Cow no longer exists. A dwelling stands on the site, possibly the converted inn, but the turbine would not be visible from the location as other buildings block the view southeastwards.

=====
ID number: 38 GELLYDW;GELLIDDU HOMESTEAD
Is there a Direct Impact: No
Is there an Indirect Impact: Yes Intervisibility
Overall Impact: Very Low The top of the proposed turbine may be visible to the south-southeast, but another turbine already stands nearby, on Gelliddu land.

=====
ID number: 39 GELLI-WEN COTTAGE
Is there a Direct Impact: No
Is there an Indirect Impact: Yes Possible intervisibility
Overall Impact: Very Low It is possible that the tips of the turbine blades would be visible 1km to the southeast.

=====
ID number: 40 LAN HOMESTEAD
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None The proposed turbine would not be visible from here as mature trees screen the view to the south-southeast.

=====
ID number: 41 FFOREST GANOL HOMESTEAD
Is there a Direct Impact: No
Is there an Indirect Impact: Yes Intervisibility
Overall Impact: Very Low The proposed turbine would be visible 1.1km to the northeast.

=====

Danybanc, Bancycapel, Carmarthenshire, Historic Environment Appraisal

=====
ID number: 42 DYLLGOED;GWYNFRYN COTTAGE
Is there a Direct Impact: No
Is there an Indirect Impact: Yes Intervisibility
Overall Impact: Very Low The proposed turbine would be visible 1.8km to the northeast.

=====
ID number: 43 FFOREST;FFOREST ISAF HOMESTEAD
Is there a Direct Impact: No
Is there an Indirect Impact: Yes Intervisibility
Overall Impact: Very Low The proposed turbine would be visible 1.45km to the northeast.

=====
ID number: 44 UNKNOWN COTTAGE
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None This cottage was a ruin by the time of the 1888 1:2500 Ordnance Survey map and its site is now hidden in mature deciduous woodland.

=====
ID number: 45 BWLCH-Y-GWYNT HOMESTEAD
Is there a Direct Impact: No
Is there an Indirect Impact: Yes Intervisibility
Overall Impact: Very Low Long range views may be possible towards the proposed turbine, 1.9km to the northeast, although trees near the house may screen the view.

=====
ID number: 46 UNKNOWN COTTAGE
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None The site of this ruined cottage is hidden in mature deciduous woodland.

=====
ID number: 47 GLANRHYDW MANSION OFFICE
OFFICES
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None Mature woodland to the north of the building would block the view towards the proposed turbine.

=====

Danybanc, Bancycapel, Carmarthenshire, Historic Environment Appraisal

ID number: 48 LLAN FACH CHURCH LAND?
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None No archaeological features have been recorded in association with this place name taken from the parish tithe schedule.

=====
ID number: 49 LLAN;CAER LLAN CHURCH LAND?
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None There are no archaeological features associated with this 'llan' place name. In this context llan probably means a field enclosure rather than an ecclesiastical site.

=====
ID number: 50 LLAN ISSA;LLAN UCHA CHURCH LAND?
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None There are no archaeological features associated with this 'llan' place name. In this context llan probably means a field enclosure rather than an ecclesiastical site.

=====
ID number: 51 LLAN ISSA;LLAN FAWR CHURCH LAND?
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None There are no archaeological features associated with this 'llan' place name. In this context llan probably means a field enclosure rather than an ecclesiastical site.

=====
ID number: 52 CAE LAN FACH;PARK LAN CHURCH LAND?
 FACH
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None There are no archaeological features associated with this 'llan' place name. In this context llan probably means a field enclosure rather than an ecclesiastical site.

Danybanc, Bancycapel, Carmarthenshire, Historic Environment Appraisal

ID number: 53 PARK Y LAN CHURCH LAND?
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None There are no archaeological features associated with this 'lan' place name. In this context lan means a field enclosure rather than an ecclesiastical site.

=====
ID number: 54 LLAN ISSA;LLAN UCHA CHURCH LAND?
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None There are no archaeological features associated with this 'lan' place name. In this context lan means a field enclosure rather than an ecclesiastical site.

=====
ID number: 55 CAE PWLL UNKNOWN
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None No archaeological features have been recorded in association with this place name taken from the parish tithe schedule.

=====
ID number: 56 CAE QUARRY QUARRY?
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None No archaeological features have been recorded in association with this place name taken from the parish tithe schedule.

=====
ID number: 57 CAE QUARRY QUARRY?
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None No archaeological features have been recorded in association with this place name taken from the parish tithe schedule.

=====
ID number: 58 CAE DAN Y POUND POUND?
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None No archaeological features have been recorded in association with this place name taken from the parish tithe schedule.

Danybanc, Bancycapel, Carmarthenshire, Historic Environment Appraisal

ID number: 59 CAE QUARRY QUARRY?
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None There are no archaeological features recorded in association with this place name.

=====
ID number: 60 LLAN CAPEL;LLAN Y CAPEL UNKNOWN
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None There are no archaeological features recorded in association with this place name.

=====
ID number: 61 CAE SCYBOR BARN?
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None No archaeological features have been recorded in association with this place name taken from the parish tithe schedule.

=====
ID number: 62 CAE POUND POUND?
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None There is no archaeological evidence recorded which is associated with this 'pound' place name.

=====
ID number: 63 UNKNOWN COTTAGE
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None The grid-reference for this site is inaccurate and it is not known which cottage is referred to in the HER.

=====
ID number: 64 BRYN-CELLI COTTAGE
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None The ruins of this cottage are now hidden in a stand of trees which would be likely to screen views towards the proposed turbine.

ID number: 65 RHYDW BLACKSMITHS WORKSHOP
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None The smithy is shown on early 20th century OS maps but has been destroyed and the site turned into a yard area by the late 20th century.

=====
ID number: 66 CLOIGYN-FACH COTTAGE
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None Mature trees to the north of the cottage would screen views towards the proposed turbine 1.2km away.

=====
ID number: 67 RHYDW;RHYDW FACH FARMSTEAD
Is there a Direct Impact: No
Is there an Indirect Impact: Yes Intervisibility
Overall Impact: Very Low The top of the proposed turbine may be visible 1.2km to the southwest, but trees and hedgerows may screen much of the view.

=====
ID number: 68 PANT CLYD;PANTCLYDD FARMSTEAD
Is there a Direct Impact: No
Is there an Indirect Impact: Yes Intervisibility
Overall Impact: Very Low The top of the proposed turbine may be visible 1.4km to the southwest, but trees and hedgerows may screen much of the view.

=====
ID number: 69 RHYDW FARMSTEAD,COTTAGE
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None The proposed turbine is unlikely to be visible from this location. The house faces east and the turbine is to the west.

=====
ID number: 70 LLWYN TEG FARMSTEAD
Is there a Direct Impact: No
Is there an Indirect Impact: Yes Intervisibility
Overall Impact: Very Low The top of the proposed turbine may be visible 1.45km to the southwest, but trees and hedgerows may screen much of the view.

=====

Danybanc, Bancycapel, Carmarthenshire, Historic Environment Appraisal

ID number: 71 HENDY FARMSTEAD
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None This farmstead no longer exists and the land has been cleared for pasture.

=====
ID number: 72 LLWYNPIOD BOUNDARY MARKER
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None The boundary marker alluded to was an oak tree mapped by the Ordnance Survey and this is not an archaeological feature, nor does it survive.

=====
ID number: 73 PEN Y PLWYF FARMSTEAD
Is there a Direct Impact: No
Is there an Indirect Impact: Yes Intervisibility
Overall Impact: Very Low The top of the proposed turbine may be visible 1.85km to the southwest, but trees and hedgerows may screen much of the view.

=====
ID number: 74 CLOS TEG;CLOS DEG FARMSTEAD
Is there a Direct Impact: No
Is there an Indirect Impact: Yes Intervisibility
Overall Impact: Very Low The top of the proposed turbine may be visible 1.85km to the west-southwest, but trees and hedgerows may screen much of the view.

=====
ID number: 75 BRYN HAWDDGAR;BRYN COTTAGE
 BACH
Is there a Direct Impact: No
Is there an Indirect Impact: No
Overall Impact: None The original cottage has been replaced by a modern bungalow and there is no outward evidence that any of the original structure survives.

=====
ID number: 76 BRYN YR AUR; BRYN YR COTTAGE
 AWYR
Is there a Direct Impact: No
Is there an Indirect Impact: Yes Intervisibility
Overall Impact: Very Low The proposed turbine would be visible at distance, 1.4km to the west-northwest.

Danybanc, Bancycapel, Carmarthenshire, Historic Environment Appraisal

ID number:	77	COEDWALTER FAWR	FARMSTEAD
		<i>Is there a Direct Impact:</i>	No
		<i>Is there an Indirect Impact:</i>	Yes Intervisibility
Overall Impact:	Very Low		The proposed turbine would be visible at distance, 1.4km to the west-northwest.
=====			
ID number:	78	COEDWALTERFAWR	WELL
		<i>Is there a Direct Impact:</i>	No
		<i>Is there an Indirect Impact:</i>	No
Overall Impact:	None		The well, if it survives, is now hidden in trees.
=====			
ID number:	79	BRYN CELLI	TRACKWAY
		<i>Is there a Direct Impact:</i>	No
		<i>Is there an Indirect Impact:</i>	No
Overall Impact:	None		This trackway is not an archaeological feature, merely a line on OS maps.
=====			
ID number:	80	BRYN YR AUR;BRYN YR AWYR	WELL
		<i>Is there a Direct Impact:</i>	No
		<i>Is there an Indirect Impact:</i>	No
Overall Impact:	None		This well was at the roadside and no longer survives.
=====			
ID number:	81	CAPEL LLANGYNHEIDDON;CAPEL KENEYTHAN;LLANGENHY THEN CHAPEL	ECCLESIASTICAL ESTABLISHMENT;CHAPEL
		<i>Is there a Direct Impact:</i>	No
		<i>Is there an Indirect Impact:</i>	No
Overall Impact:	None		There is no proof that an early church existed here and if it did its site has never been identified.
=====			
ID number:	82	CLOSTEG;CAE HENWAL	CEMETERY?
		<i>Is there a Direct Impact:</i>	No
		<i>Is there an Indirect Impact:</i>	No
Overall Impact:	None		No archaeological evidence of such a cemetery has been found and its existence is purely speculative, based on the location of a now destroyed cross-incised stone, once built into a boundary bank here.
=====			

Danybanc, Bancycapel, Carmarthenshire, Historic Environment Appraisal

ID number: 83 DANYBANC FIELD SYSTEM

Is there a Direct Impact: Yes The proposed turbine would stand in one of the fields. The proposed development site would be accessed via a farm trackway, with a temporary track laid to the turbine site. Possible impact on gateways during construction.

Is there an Indirect Impact: Yes Visual impact on the holding's fieldscape.

Overall Impact: **Very Low** The proposed turbine and its cable trench would not disturb any field boundaries or change the essential character of the field system.

=====

ID number: 84 DANYBANC TRACKWAY

Is there a Direct Impact: Yes The proposed development site would be accessed via this trackway, with a temporary track laid to the turbine site. Possible impact on gateways during construction.

Is there an Indirect Impact: Yes Intervisibility

Overall Impact: **Very Low** The surface of the trackway is very firm, with bedrock exposed in places. There appears to ample width to allow the passage of vehicles and the existing gateways appear wide enough also.

=====

**Appendix B:
Written Descriptions Of Newly
Recorded Archaeological Sites**

Danybanc, Bancycapel, Carmarthenshire, Historic Environment Appraisal

ID number: 83 DANYBANC FIELD SYSTEM
HER PRN: NMR NPRN: 0
NGR: SN4326014960 Grid reference taken at centre of site
Broadclass: Agriculture and Subsistence
Period: Post Medieval
Form: Complex **Condition:** Intact
Site Status: **SAM number:** **LB number:** **grade:**
Description: Danybanc farm has been in existence since at least the first quarter of the 19th century and as early as 1819 the Ordnance Survey mapped the field system here. This field system was more accurately mapped for the parish tithe survey in 1844 and later 19th century
 Ordnance
 Survey maps. Many of the characteristics recorded on the tithe map are still recognisable in the layout of the field system today. The fields are mostly defined by well-maintained hedgerows atop earth boundary banks.
Rarity: Common
Reference: Trysor
Documentation:
Group Value: Associated with a farmhouse and outbuildings and trackway
Evidential Value: Working farmstead when visited in 2014
Historical Value: None
Aesthetic Value: None
Communal Value: None
Significance: Locally Important

ID number: 84 DANYBANC TRACKWAY
HER PRN: NMR NPRN: 0
NGR: SN4330014830 Grid reference taken at point along linear site
Broadclass: Transport
Period: Post Medieval
Form: Earthwork **Condition:** Intact
Site Status: **SAM number:** **LB number:** **grade:**
Description: This trackway gives access to several fields to the east of the farmyard at Danybanc farm. The westernmost section of the trackway is shown on the 1819 Ordnance Survey Original Surveyors Drawings, though at that time the track ran northeastwards. It is shown running on its present eastward course on the 1831 1 inch to 1 mile Ordnance Survey map however and has been a constant feature on the farmstead since that time.
Rarity: Common
Reference: Trysor
Documentation:
Group Value: Associated with a farmhouse and outbuildings and a field system
Evidential Value: Trackway is shown on 19th century maps and is still used
Historical Value: None
Aesthetic Value: None
Communal Value: None
Significance: Locally Important
