Decision (If the proposal is considered to be inappropriate at this location please provide an explanation)	<p>Three Historic Environment Features have been recorded as a result of this consultation, all identified by the Woodland planner. These include two relic cottage sites PRNs 110413, 110414, and a stone cairn PRN 110415.</p> <p>The applicant's draft management plan proposes to establish a 5m buffer around the features, which will be clearly marked out on the ground and excluded from the planting area and safeguarded during the ground preparation and planting operations.</p> <p>This is acceptable and DAT advise that consent be given. DAT are not aware of any further historic environment issues in the remainder of the application.</p>
