Decision (If the proposal is considered to be inappropriate at this location please provide an explanation)	<p>Thank you for forwarding this Glastir Woodland Creation proposal to us.</p> <p>Dyfed Archaeological Trust – Heritage Management (DAT) have reviewed the new planting proposals for Glancwmsidan against the Historic Environment Records database. Given the topography of the location which includes an area of high ground where prehistoric funerary monuments might be expected to survive, a site visit was carried out on March 14th 2018. The site visit was inconclusive and no further archaeological sites were observed other than the Historic Environment Feature (HEF): PRN 37, 784 Cottage.</p> <p>DAT therefore advise that in order to comply with UKFS <i>Forests and the historic environment</i> guidance, the following advice should be adhered to in the Glastir Woodland Creation plan:</p> <p>Planting within the area outlined on the attached map must take care to avoid the site of the cottage building as depicted on the 1st edition Ordnance Survey map and therefore planting should only take place in the southern half of the enclosure.</p>
