Good morning,

We are in the process of planning a new woodland creation proposal at the above property. As part of this process, we require consultation with Heneb and welcome your feedback please.

- The planting area is approx. 4.68ha in total.
- A varied planting plan is proposed:
  - Native Biodiversity Woodland – 3.8ha @ 1600 trees per hectare
  - Enhanced Mixed – 0.88ha @ 2500 trees per hectare (non commercial)
- Ground prep:
  - Mulching of excess vegetation prior to planting.
  - Direct planning into sward.
- Please see location map and the preliminary planting layout attached.

We would be grateful if you could confirm whether there are any archaeological interests or constraints within the proposed planting area please.

If you need any further information, please don't hesitate to contact me.

Kindest regards

**Paul Hastings** FDSc Arb, M.Arbor.A
