

8th January, 2024

Dear Doug Pickup,

**NRW Screening Request
FLA285 23-24 – Cefnllwynpiod**

Thank you for your felling licence consultation. I have reviewed the map boundaries against the regional Historic Environment Record (HER) and other sources. I note that our data mapping aligns with your observations of a Post-Medieval Quarry site (PRN 19283) within the farm shelterbelt woodland.

Additionally, in my review of historical mapping I came across another annotated feature. Despite my uncertainty about its origin, I have created a historic environment record for it (PRN 130061). I believe it is likely to be another quarry.

Below is a summary of my findings and a map illustrating their locations. In the inset of the map I have also included the 2nd edition OS map where you can observe the additional marked feature with a trackway leading to the adjacent farmstead.

Summary of Findings:

1. PRN 19283 POST MEDIEVAL QUARRY SN 60480 75295
A minor quarry shown on the 1964 Ordnance Survey map.
2. PRN 130061 Cefn Coed SN 60427 75465
A marked feature on the 1st and 2nd edition OS maps likely indicates a quarry in the same land parcel as PRN 19283, labelled as a quarry on historic maps. A connecting trackway links both features to the nearby farmstead.

The current condition of the features is unknown; however, they may survive as ruins, earthworks or below ground archaeology. We advise that the historic environment features (labelled on the map above and marked with a green polygon) be protected from damage during forest operations, to comply with UKFS Forests and the historic environment guidance.

If the opportunity arises, we would appreciate receiving further information about these features, particularly PRN 130061. This could include photographs or written descriptions.

There is always the possibility for previously unknown remains to survive within this area of which we have no knowledge. Should further archaeological features or finds be identified it is important that Dyfed Archaeological Trust Heritage Management is informed and further information and advice can then be provided as required.
