DAT 15096

Dear Melissa,

Thank you for your email and for providing the report which is very helpful in explaining what is planned.

I've reviewed the report and photos of the weir as it exists now and can clearly see that although there has been a weir in this location since at least the late 19th /early 20th century it has been heavily modified subsequently. I recommend that a photographic record is made of weir before, during and after the work is completed, and that these photographs are supplied to the Dyfed Archaeological Trust to be added to the Historic Environment Record (HER). Receipt of this photographic record would fulfil the requirements for NRW to have regard to the statutory guidance; [Historic Environment Records in Wales: Compilation and Use](#). I'm attaching some guidelines for carrying out this work.

If you have any queries about this response, please feel free to get in contact,

Best wishes

Alice

Subject: RE: Heritage screening - Llanwrda Project

Hi Alice

We are just picking Llanwrda Project up again in our Programme of works we have to improve fish passage across Wales.

I'm not sure that we ever got back to you on the below email.

I have attached the design philosophy statement which provides more details.
Please let me know your thoughts.

Regards
Melissa

This just came in Melissa from DAT re:Llanwrda.
Looks like they want more details of proposed work.

Cheers,
Stu.

Subject: RE: Heritage screening

Dear Stuart,
DAT 15096

Thank you for sending this consultation for the weir on the Afon Dulais at Llanwrda. I've checked the proposals against the Historic Environment Record and note that this weir (PRN 125769) appears on the 1906 Ordnance

Survey map but not on the 1887 (1st edition) and appears to have been constructed to supply water power for the Vale of Towy Wool Factory (PRN 21905) which was in operation in the 19th century.

Clearly the weir is a historic feature, therefore could you supply more information regarding the proposals for modification? We can then make recommendations as to appropriate mitigation if considered necessary.

Best wishes

Alice

Subject: Heritage screening

Hi Zoe, Alice,

Hope all's well with you.

NRW/DAT MoU – Heritage Screening

NRW is proposing to modify a weir on the Afon Dulais at Llanwrda, Carmarthenshire
The project aims to improve fish passage beyond the weir on the Afon Dulais, Llanwrda, Carmarthenshire. This will provide access to 20km of suitable spawning and juvenile salmonid habitat.

– Grid reference.... **SN 71396 31618**

Would it be possible to carry out a screening for features of heritage / historic interest that might be affected by this work at the location please ?

Your advice can then be added to the screening file note for the Project Manager to action as appropriate.

Many thanks.

Stuart
