Advice (If the proposal is considered to be inappropriate at this location please provide an explanation)	<p>PRN 817 Bronze Age Round Barrow SN5918942198 Flattened round barrow located on a local highpoint on ground gently sloping down to the SSW. Lots of large angular blocks of stone are visible on the surface of this grass-covered cairn which has been slightly hollowed in the centre and denuded on its SE side. This site may have been intervisible with barrow 9613 located across the steep-sided valleys of the Ceimant and Rhyd-y-mwyn to the W of the site. N Bestley PFRS 2001</p> <ul style="list-style-type: none"> • No planting within the area outlined in green on the map below • Access tracks/loading areas must not cross this area. • It is also recommended that an area of open ground around this prehistoric monument is incorporated into the plan to allow visibility and intervisibility with other prehistoric monuments (PRN 9613) shown on the map below. <p>PRN 822 Unknown Place Name SN5900042000 The field name 'Cae Garn' on the parish tithe is suggestive of a prehistoric barrow, but no evidence has confirmed one ever existed.</p>
