

Permitting Team (Forestry)

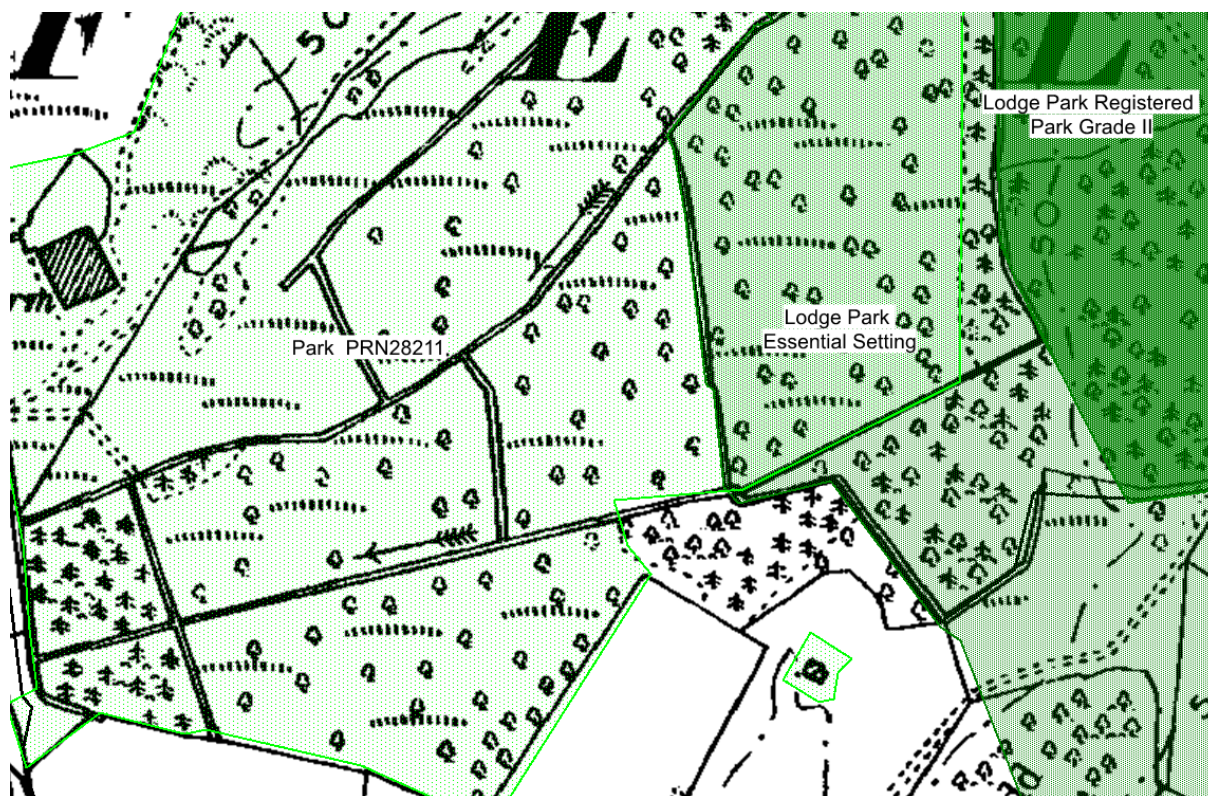

1st September 2022

Dear Karen,

FLA 200 22-23 Lodge Farm, Machynlleth

Thank you for your consultation and apologies for the delay. I have reviewed the map boundaries against the regional Historic Environment Record (HER) and note that forestry operations have the potential to impact on the historic landscape (PRN28211) which lies beyond the Grade II Registered Parkland of Lodge Park.

The historic parkland is shown on historic maps as loosely scattered deciduous trees with areas of denser mixed conifer and broadleaf trees. See historic map extract below. We would recommend that future woodland management is sympathetic to retaining the historic parkland setting through restocking at low density levels and retaining a proportion of deciduous trees.

There is always the possibility for previously unknown remains to survive within this area of which we have no knowledge. Should further archaeological features or finds be identified it is important that Dyfed Archaeological Trust Heritage Management is informed and further information and advice can then be provided as required.
