Dear Lamorna,

Ddolwen UKWAS Consultation

Thank you for your UKWAS consultation. I've had a look at the area under evaluation in reference to the Historic Environment Record and note the following historic environment feature, which is derived from historic map sources:

The current condition of this feature is unknown; however it may survive as ruin, earthwork or below ground archaeology. We advise that this historic environment feature (shown in green on the map above) is protected from damage during forest operations, to comply with UKFS Forests and the historic environment guidance.

The forest also lies within Rhos Pemboyr Historic Landscape area,

Historic maps show that prior to afforestation it was open common land used for grazing animals. Nearby, on high

There is always the possibility for previously unknown remains to survive within this area of which we have no knowledge. Should further archaeological features or finds be identified it is important that Dyfed Archaeological Trust Heritage Management is informed and further information and advice can then be provided as required.
