Dear Stephen,

**NRW Heritage Management Advice Request –
DFR/S/2024/0057 - Flood Risk Activity Permit Application**

Thank you for the Flood Risk Activity Permit Application consultation. I have reviewed the map boundaries against the regional Historic Environment Record (HER) and other sources and note the site compound sits close to the Scheduled Monument area of Ammanford Castle CM067. If any work encroaches into the Scheduled monument area Cadw must be consulted.

The Historic maps also record buildings and sidings associated with the railway within the application boundary. Any planned intrusive work should first be consulted with Heneb, Dyfed region, Heritage Management.

I also note the following features.

PRN127319 DYFFRYN POST MEDIEVAL FOOTBRIDGE SN6232112707
Footbridge marked on 1st edition 1:2500 Ordnance Survey Maps. E. Lloyd 2021.

The current condition of these features are unknown; however, they may survive as a ruin, earthworks or below ground archaeology. We advise that these historic environment features (labelled on the map above and marked with a red spot) are protected from damage during forest operations, to comply with UKFS Forests and the historic environment guidance.

There is always the possibility for previously unknown remains to survive within this area of which we have no knowledge. Should further archaeological features or finds be identified it is important that Heneb – The Trust for Welsh Archaeology, Heritage Management Dyfed region is informed and further information and advice can then be provided as required.
