Dear Peter,

NRW Screening Request FLA 124 23-24 Coed Marros.

Thank you for your felling licence consultation. I have reviewed the map boundaries against the regional Historic Environment Record (HER) and other sources and note the application falls within the Historic Landscape Character Area of Marros Mountain
<https://dyfedarchaeology.org.uk/HLC/EstuaryArea/area135.htm>.

The application and the surrounding land has been subject to several assessment which record medieval fields systems with ridge and furrow. The results of these assessments record the extent of these features within the green polygon on the map below.

It is important that the surviving remains of the former strip-field system and its associated features are not damaged during any felling operations in the forest and we **strongly recommend that further archaeological assessment takes place before restocking.**

There is always the possibility for previously unknown remains to survive within this area of which we have no knowledge. Should further archaeological features or finds be identified it is important that Dyfed Archaeological Trust Heritage Management is informed and further advice can then be provided.
