

Woodland Creation: Consultation Advice Form

CRN	A0064585
EOI	7765427
Application Name	Ty Newydd, Myddfai
Parcel No.	
NGR	SN787288
Option Number (if known)	803
Woodland category	Enhanced Mixed Woodland
Woodland Planner	Bronwin & Abbey Ltd
Service Provider	Dyfed Archaeological Trust
Officer	AMP
HEF UID	N/A
Advice (If the proposal is considered to be inappropriate at this location please provide an explanation)	<p>PRN 282 PEN CAE NEWYDD BRONZE AGE ROUND BARROW SN78932885 This robbed-out round cairn is located on a moorland ridge, the ground falling away steeply to the N and S, and more gently to the W. The stony mound measures 9m in diameter and 0.3m high and is composed of turf-covered loose stones and small boulders. It has been dug into and distorted on the NE side and has a generally disturbed appearance. Another cairn, a ring barrow (281) lies c.250m away to the NE, with further cairns to the E (278, 279 and 280). This site is located on the spine of a NE-SW running ridge and is now mainly overgrown with only a few stones visible. N Cook et al PFRS 2003</p> <p>https://archwilio.org.uk/arch/query/page.php?watprn=DAT282</p> <p>PRN 283 PEN CAE NEWYDD MEDIEVAL SETTLEMENTS SN78962879 Remains of a longhouse are situated at this location on moorland at 348.0m above OD, in a sheltered place with higher ground to the north and east, overlooking a valley to the south west. The turf covered wall foundations of small stones and boulders</p>

	<p>indicate a building 8.5m in length orientated WSW-ENE-, and 6.5m in width. There is a subdividing wall 2.5m from the east end and a possible extension 2.5m further west is likely, though no walling is visible. The entrance was probably on the north side. Except at the SE corner where a mound of stone reaches 0.6m in height, elsewhere the walling does not exceed 0.1m in height.</p> <p>https://archwilio.org.uk/arch/query/page.php?watprn=DAT283</p> <p>The application lies within the Registered Historic Landscape Black Mountain & Mynydd Myddfai HLW (D) 1, and Historic Landscape Character Area of The Black Mountain - Y Mynydd Ddu.</p> <p>https://dyfedarchaeology.org.uk/HLC/Myddfai/area/area240.htm</p> <p>In addition to those features listed above, the wider area is rich with archaeology including 3 prehistoric scheduled monuments, CM351, CM349 and CM350, located nearby.</p> <p>We recommend that a site visit is carried out to assess the impact of proposed planting on the historic landscape character and specific historic environment features. Further advice can then be provided.</p>		
Further Assessment Required?	Yes		
Map attached?	Yes
