

Woodland Creation: Consultation Advice Form

CRN	A0021280
EOI	7767977
Application Name	Dinas Fach - New woodland creation
Parcel No.	
NGR	SN 27388 30071
Option Number (if known)	P003
Woodland category	Native woodland carbon
Woodland Planner	Pryor & Rickett
Service Provider	Heneb the Trust for Welsh Archaeology Dyfed Region
Officer	C Enright
HEF UID	N/A
Advice (If the proposal is considered to be inappropriate at this location please provide an explanation)	<p>PRN 3947 DINAS FOEL Iron Age Defended Enclosure/Medieval Motte SN 2735 2994</p> <p>The RCAHM reported in 1917 that earthworks on a hillock were removed 30 years prior during larch tree planting, and by 1913, no earthworks were visible. The current site is an earth-covered rock outcrop with old quarries on the north side and potential quarry waste mounds to the village's north. Except for a distinct slope break on the southwest edge, there are no evident defences. The area is now covered in rough grass and gorse scrub on the northwest side. The site could be an Iron Age defended enclosure or a medieval motte, as suggested by K Murphy and R Ramsey on January 30, 2008.</p> <p>PRN 130062 DINAS Well SN 27361 30015 A well illustrated on the 1st and 2nd edition OS map.</p> <p>In light of this, Dyfed Archaeology recommends that in order to comply with UKFS Forests and the historic environment</p>

	<p>guidance, the following advice should be adhered to in the Woodland Creation plan:</p> <ul style="list-style-type: none"> • Avoid planting within the green area marked on the map. • Ensure that access tracks and loading areas do not intersect with the green area. <p>Given the potential for undiscovered remains within this area, for which we currently have no information, it is crucial to promptly notify Dyfed Archaeology Heritage Management if any additional archaeological features or finds are uncovered. This will enable us to provide the necessary information and advice accordingly.</p>		
Further Assessment Required?	No		
Map attached?	Yes
