Dear Peter,

Thank you for your screening request. I have checked your proposals against the regional Historic Environment Record and other sources and there are no recorded Historic Environment Features within this consultation area. I believe the weir, marked on the 2023 Ordnance Survey map, is quite modern.

There is always the possibility for previously unknown remains to survive within this area of which we have no knowledge. Should further archaeological features or finds be identified it is important that Dyfed Archaeological Trust Heritage Management is informed and further information and advice can be provided as required.

If you require any more information or guidance please get in touch.

Best wishes

Alice

Hi Alice – same for this one – any issues?

Thanks

Pete

**Subject:** Llanwrda A40 structure

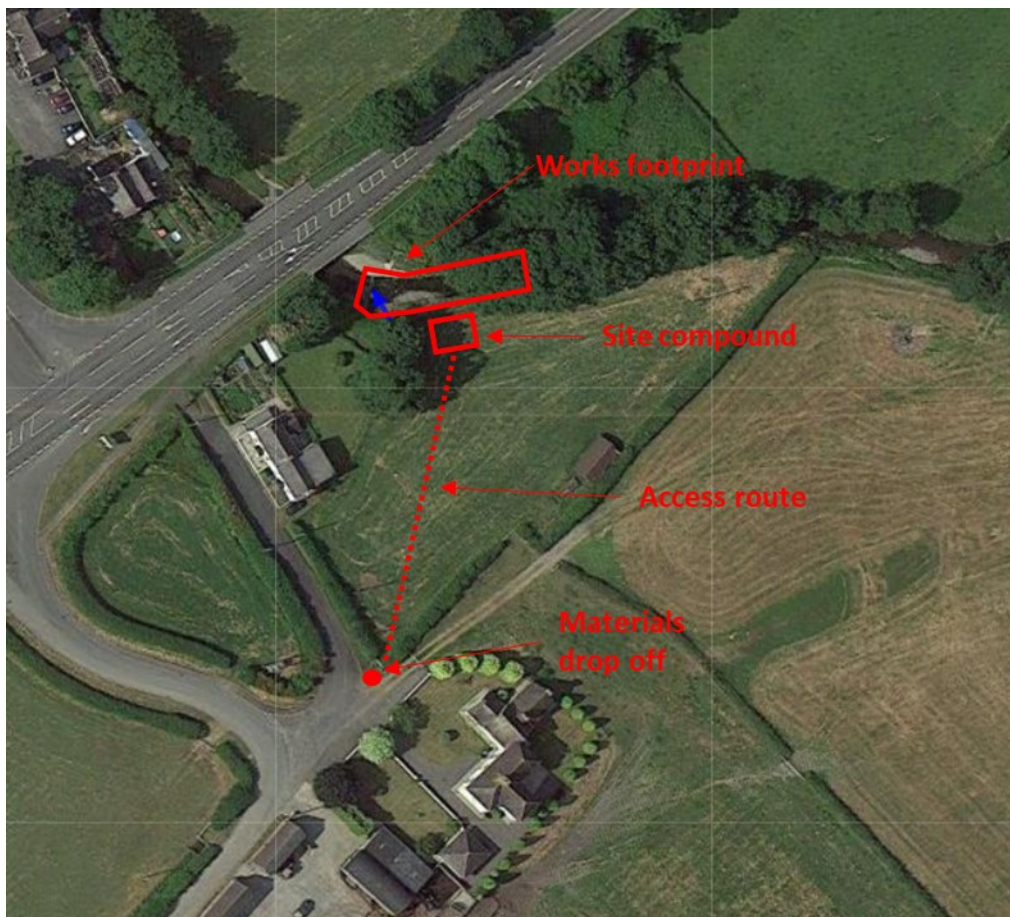

Hi Alice

We're also planning a fish easement scheme just upstream on the Llanwrda Dulais near the A40 road bridge. It's a very similar scheme involving construction of a rock ramp to reduce head difference at the weir and an eel/lamprey pass. See designs and method statement attached. The image below shows material drop off site, access route, site compound and the footprint of the works.

I've looked at Archwilio and cant see any historic environment records here either. Can you confirm this is the case?

Thanks

Peter
