27th November 2023

Dear Paul,

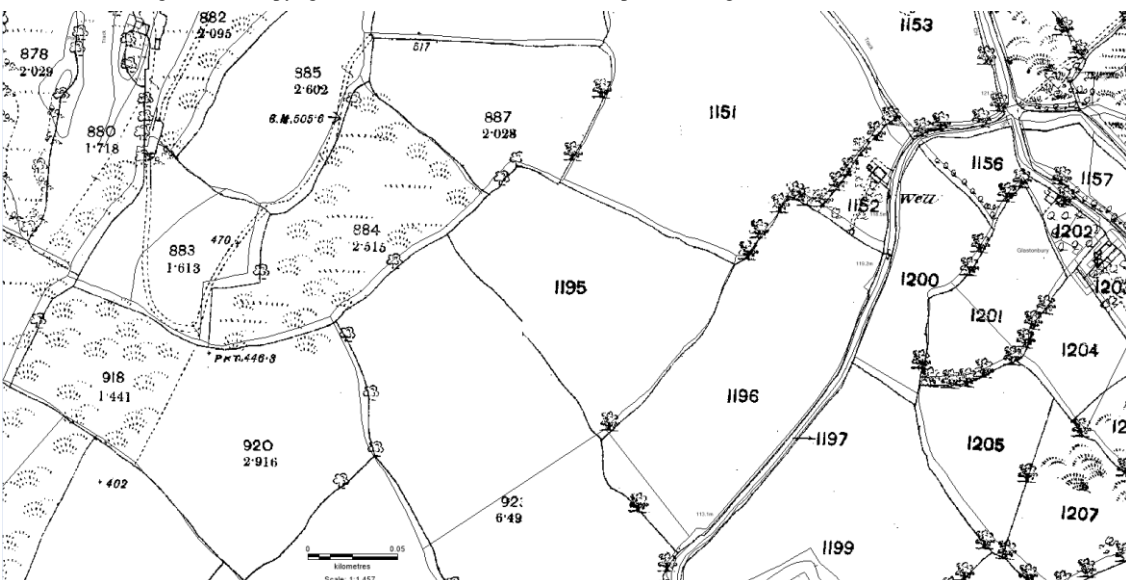

**EIA (Agriculture) Regulations - Consultation Request  
T060 2023 Kidwelly.**

Thank you for your EIA screening request. I have checked your map boundaries against the regional Historic Environment Record and other sources and note the following features.

The historic maps record clear field boundaries with distinctive hedgerow trees within the consultation area. These hedgerows are significant historic features and integral to the Historic Landscape Character. Therefore, it is important they should be retained.

There is always the possibility for previously unknown remains to survive within this area of which we have no knowledge. Should further archaeological features or finds be identified it is important that Dyfed Archaeological Trust Heritage Management is informed and further information and advice can be provided as required.

If you require any more information or guidance, please get in touch. DAT would also appreciate any updates to the project and encourage contact if the recommendations are unable to be fulfilled.
