

27th November 2023

Dear Bev,

**NRW Screening Request
FLA228 23-24 Maesycilyn near Machynlleth.**

Thank you for your felling licence consultation. I have reviewed the map boundaries against the regional Historic Environment Record (HER) and other sources and note the application includes areas of peat.

Peat has the potential to preserve paleoenvironmental evidence and waterlogged deposits. Therefore, we recommend that no replanting take place within the areas marked with green polygon on the map above, unless a paleoenvironmental assessment can be undertaken.

There is always the possibility for previously unknown remains to survive within this area of which we have no knowledge. Should further archaeological features or finds be identified it is important that Dyfed Archaeological Trust Heritage Management is informed and further advice can then be provided.
