We have no information on the current condition of this site, it may be a ruin, or survive as an earthwork, or below ground archaeology. The area in green on the map above must be considered archaeologically sensitive and protected from damage.

There is always the possibility for previously unknown remains to survive within this area of which we have no knowledge. Should further archaeological features or finds be identified it is important that Dyfed Archaeological Trust Heritage Management is informed and further information and advice can be provided as required.

If you require any more information or guidance please get in touch.
