The consultation area lies within the Registered Historic Landscape

<https://dyfedarchaeology.org.uk/HLC/milford/area/327.htm> . The historic map evidence shows that this area had deciduous woodland along the banks of the river. Therefore, the restocking in mixed broadleaf woodland species would be more appropriate.

There is always the possibility for previously unknown remains to survive within this area of which we have no knowledge. Should further archaeological features or finds be identified it is important that Dyfed Archaeological Trust Heritage Management is informed and further information and advice can then be provided as required.
