In order to comply with UKFS Forests and the historic environment guidance planting within the areas outlined in green on the map above should be avoided, and access tracks/loading areas should not cross these areas. A 5-10m buffer around the feature recommended to prevent damage and disturbance to potential archaeology.

There is always the possibility for previously unknown remains to survive within this area of which we have no knowledge. Should further archaeological features or finds be identified it is important that Dyfed Archaeological Trust Heritage Management is informed and further information and advice can then be provided as required.
