The current condition of these features is unknown; however, they may survive as ruins, earthworks or below ground archaeology. We advise that these historic environment features (marked on the map above) are protected from damage during forest operations, to comply with UKFS Forests and the historic environment guidance.

The consultation area lies within the Registered Historic Landscape Character Area <https://dyfedarchaeology.org.uk/HLC/HLCTowy/area/area179.htm>. The historic map evidence shows the consultation area was a mixed deciduous and conifer woodland. Therefore, we recommend replanting be sympathetic to the historic character.

There is always the possibility for previously unknown remains to survive within this area of which we have no knowledge. Should further archaeological features or finds be identified it is important that Dyfed Archaeological Trust Heritage Management is informed and further information and advice can then be provided as required.
