Dear Paul,

EIA (Agriculture) Consultation T036 2024 Newcastle Emlyn

Thank you for your EIA (Agriculture) consultation. I have reviewed the map boundaries against the regional Historic Environment Record (HER) and other sources and note the following.

The historic maps record clear field boundaries with distinctive trees. These hedgerows are significant historic features and integral to the Historic Landscape Character. Therefore, it is important they should be retained.

There is always the possibility for previously unknown remains to survive within this area of which we have no knowledge. Should further archaeological features or finds be identified it is important that Heneb – The Trust for Welsh Archaeology, Heritage Management Dyfed region is informed and further information and advice can then be provided as required.
