Dear Stephen,

**NRW Heritage Management Advice Request –
DFR/S/2024/0114 - Flood Risk Activity Permit Application**

Thank you for the Flood Risk Activity Permit Application consultation. I have reviewed the map boundaries against the regional Historic Environment Record (HER) and other sources and note the consultation lies within the Historic Landscape Character Area of Pembroke within the Registered Historic Landscape Area Milford Haven Waterway HLW (D) 3.

The current condition of these features is unknown; however, they may survive as a ruin, earthworks or below ground archaeology. We advise that the historic environment features (labelled on the map above and marked with a red dot) are protected from damage during operations.

As this is a grade II listed structure, consent and details must be approved by the conservation officer at Pembrokeshire County Council. We have no further comments to make.

There is always the possibility for previously unknown remains to survive within this area of which we have no knowledge. Should further archaeological features or finds be identified it is important that Heneb – The Trust for Welsh Archaeology, Heritage Management Dyfed region is informed and further information and advice can then be provided as required.
