Dear Karen,

NRW Screening Request
FLA212 24-25 Blaendud near Cwmdud, Carmarthenshire

Thank you for the felling licence consultation. I have reviewed the map boundaries against the regional Historic Environment Record (HER) and other sources and note that compartment 5c1 includes the Scheduled Monument, Gareg Hir Standing Stone (CM202) therefore Cadw must be consulted. I am copying this response to Louise Mees, Inspector of Ancient Monuments and Archaeology (South West Wales).

We advise that these historic environment features (labelled on the maps above and marked with a green polygon and or red spot) be protected from damage during forest operations, to comply with UKFS Forests and the historic environment guidance.

Cadw will advise on the scheduled area of CM202 and its setting. When restocking in the vicinity of the scheduled monument a deciduous tree buffer is recommended to provide a permanent buffer around the feature to protect it from forestry operations.

The consultation areas are part of a rich prehistoric landscape, with recorded round barrows, standing stones, chambered tombs and several scheduled monuments (SM) which in prehistory would have intervisibility between features. This should be a consideration in the future restocking of this area.

There is always the possibility for previously unknown remains to survive within this area of which we have no knowledge. Should further archaeological features or finds be identified it is important that Heneb – The Trust for Welsh Archaeology, Heritage Management Dyfed region is informed and further information and advice can then be provided as required.
